## Wickersham Sees "Comfort For Wets" In Report

NEED DEFINITE PROGRAM, BOB SAYS IN APPEAL

Five Day Week and Six Hour Day Proposals Are Heard by Progressives

GREEN ASKS FOR ACTION  
Federation Head Thinks Economic Forces Can Be Put Under Control

BULLETIN  
Washington—(P)—In an attack upon the Hoover administration, Senator Norris, Republican, Nebraska, before the Progressive conference today called for the election of a Progressive president."

Washington—(P)—Shorter working hours and a wider distribution of wealth were suggested today to the Progressive conference as possible steps to a solution of unemployment and industrial troubles.

Robert P. Scripps, president of the Scripps-Howard newspapers, put the two-point proposal into plain words after similar suggestions had been voiced by President William Green of the American Federation of Labor.

Senator LaFollette of Wisconsin, whom the veteran Independent, Norris, said he looked upon to lead in the independent movement after he had passed on, presented the problems to the conference.

In the general discussion, D. B. Robertson, president of the Brotherhood of Locomotive Firemen and Engineers, said one third of his organization was "walking the streets."

The five day week was proposed by Green. Robertson proposed, in addition, a six hour day. Scripps said "shorter workin' hours than we have ever dreamt of" would be necessary.

Green said he was not willing to admit failure to deal with the economic forces bringing on "these distressing situations."

"I believe there is in us the inherent power," he asserted, "and ability to control and master these forces so that by orderly planning we can make it possible for every man and woman willing to work to secure a livelihood.

Effects of Machinery  
Green saw in the replacement of man by machinery a "permanent army of unemployed." In the last ten years he estimated 900,000 workers were thrown out of work in the leading industries by machinery.

The labor head proposed immediately an inauguration of a five day week in both public and private industry. He said congress would "do its duty" if it did not order such a program for federal employees at the next session. He insisted upon some kind of "work security."

"If it is impossible to find steady employment," he said, "then some kind of readjustment should be made for saving work and purchasing power for the employees."

"We expect to press upon the next session of congress for the enactment of an injunction relief measure that will make labor free in America."

"We stand with the railway organization in opposition to any consolidating plan that does not take care of the human element. We are sympathetically studying unemployment insurance."

"Last I want to tell you that our great organization is uncompromisingly opposed to recognition of Soviet Russia and we want our position on that definitely understood."

In asking for remedies, Senator LaFollette offered none but said "it is not enough to criticize." He held that Independents in congress are ready to exercise their power in the next session and urged formulation of the program.

"The terrible dislocation of our national life," he said, "was not caused by over-production. The people of this country, and countless millions abroad, would have consumed more than we produced had their purchasing power been adequate to absorb the output of factory and farm."

"Only a few days ago, congress adjourned without taking any action to relieve the distress caused by unemployment. The federal government gave assistance only to those farmers in the drought stricken states who could furnish adequate security."

Cities Survey Findings  
LaFollette said he and Senator Walsh, Democrat, Massachusetts, in a survey determined that more than 170 cities of more than 5,000 population could not cope with unemployment relief. He added "the administration lacked either the will or the courage to meet this crisis."

In response to LaFollette, remedies were suggested by other speakers.

George E. Soule of the labor bureau, New York city, proposed creation by congress of an economic general staff to work out a national economic policy.

Leo Wolman, employment expert connected with the National Bureau

### SURPRISED TO FIND THEY ARE WORST CRITICS

Probe Board Chairman Denies Dry Law Study Cost Was Excessive

SAYS DRY'S FRIENDLY Differences Between Board Members Confined to Remedies, He Claims

Boston—(P)—Chairman Wickerham of the law enforcement commission, today interpreted the commission's probe report as holding more comfort for the "wets" than for the "drys."

He expressed surprise that "the most vehement criticism" had come from anti-prohibition sources, adding he thought "the wets" would have derived more encouragement from the report and the separate statements of the commissioners attached to it than the "drya."

The 72-year-old commission chairman included this statement in a luncheon address before the Boston Chamber of Commerce.

Hitting out at various criticisms of the prohibition report, Wickerham asserted it was untrue that the commission's conclusions and recommendations "were utterly at variance with the report."

He denied flatly statements that the dry law study had cost \$50,000, or "upwards of \$5 a word." The total amount expended upon it, he said, was \$56,958.69, addition of overhead expenses leaving the cost below \$100,000.

Must Brush Other Work

The time spent upon it, he said, "has left us with too short a period in which to complete with satisfaction the adequate consideration of the reports of experts upon other matters which are either now before us or in preparation." The commission technically ceased to exist after July 1.

Discussing reactions to the commission report, Wickerham said comments of "the dry press and of party organizations" had been friendly.

"They seem," he continued, "to have taken to heart the criticisms of the methods adopted by prohibition advocates in the past, and to have realized from the description of existing conditions the need of rallying their forces and reconsidering their plans in the light of the facts set forth."

"In the past there has been much well founded complaint of the extreme intolerance of the prohibitionists. Their peculiar characteristics of late appear to have been appro-

### KIRKLAND ATTORNEYS STUDY NEW EVIDENCE

Valparaiso, Ind.—(P)—A story that Arlene Draves, 18, died from wounds resulting from being struck over the head with a milk bottle in the hands of a jealous girl friend, and not from bruises inflicted by the convicted Virgil Kirkland, engaged the attention of his counsel today.

Framing their plea for a new trial, to be presented to Judge Grant Crumpacker Monday, Defense Attorney Barratt O'Hara said that he was seeing the witness who was responsible for this new bit of evidence.

"Before we can conclude this in our new trial motion," he said, "we must find witnesses to present at a new trial."

**HELD UNDER DRY LAW**

Milwaukee—(P)—Frank Jones of Milton, Wis., who came to Milwaukee with two suitcases containing liquor with the intentions, federal agents claim, of cornering the hotel liquor trade, was bound over to the grand jury at a preliminary hearing today.

### SENATE VOTES FOR DELAY ON AUTO LICENSES

Passes Bill Permitting Needy Owners to Withhold Fee Until May 1

#### BULLETIN

Madison—(P)—The state assembly today concurred in a senate bill to permit needy persons to postpone payment of auto license fees from March 15 to May 1. The measure now goes to the governor for his signature. The assembly's action came shortly after the measure had been passed by the senate. Concurrence was ordered by a 38 to 2 vote, Assemblymen Perry and Heckard dissenting.

Madison—(P)—The senate today passed a bill permitting needy automobile owners to postpone payment of auto license fees from March 15 to May 1.

The vote was 27 to 3. Senators John Cashman, Denmark; E. J. Severson, Iola, voted against the bill. The measure now goes to the assembly.

Sen. George Blanchard, Edgerton, introduced the bill. Under its provisions, automobile owners who wish to postpone payment of their license fee must file affidavits showing they are unable to pay March 15.

The measure is designed to aid persons who must use their automobile for transportation to and from work. Many use their cars to travel to neighboring cities for work, Sen. Blanchard said.

Sen. Walter Hunt, River Falls, who has identified himself as a foe to any delay in acting upon proposed legislation, presented a resolution to the senate requesting the chief clerk to make a report showing the number of bills and resolutions which have been introduced and reported to the floor.

He said some measures were being withheld from the calendar in order to benefit the legislative employees who are paid on a per diem basis. Lt. Gov. Henry Huber, the presiding officer, said the information sought by Sen. Hunt, was readied by Congress will be put into effect.

"We want to have a definite plan of action in every section before July 1," the prohibition director said. "There is no use in having increased facilities unless there is a plan of campaign to employ them."

The senate passed a bill to establish a state game bird farm in October.

**MOST OF EUROPE STILL FEELS GRIP OF WINTER**

London—(P)—Winter still holds most of Europe in a fierce, unrelenting grip today.

Germany, France, Austria, Switzerland, Scandinavia, Holland and British Isles suffered from storms which began last week and have continued with little pause since.

The Zuyder Zee, Holland's great inland sea, for the first time in several years, was frozen over and ferry service was suspended. Roads were either blocked by snowfall or made extremely dangerous for traffic in all the affected countries.

Conditions in Great Britain were a trifle less severe than yesterday, although cold winds and frost continued. There was some anxiety in the hill country at the prospect of melting drifts bringing floods.

**WILBUR SAYS OIL COS. READY TO COOPERATE**

Washington—(P)—Secretary Wilbur today announced that all of the oil companies that "have been approached in negotiations to limit imports have said they were willing to cooperate."

Secretary Lamont under instructions from President Hoover, instructed the Gulf Oil company, Standard Oil company of New Jersey, Standard of Indiana, and others,

because surviving brigands invariably carried off the victims.

The American patrol did not weather the last eight months unscathed, however. Samuel Elkins, of Brooklyn, N. Y., seaman on the gunboat Guan, was killed last July 5 in a battle between a bandit shore battery and the Guan and three British gunboats near Yochow. Two British sailors were wounded.

On July 30, near Chanteh, in the Siang river, bandits fired upon the gunboat Palos. Five sailors were wounded, fifty Chinese were killed and scores wounded.

Generally, however, the American warships emerged without casualties.

Patrol ships of other nations suffered a similar unprecedented number of attacks in the last eight

### BELIEVE 200 LIVES LOST IN SHIP BLAST

Shanghai—(P)—Two hundred persons were believed drowned when the heavily loaded Chinese passenger steamer Pa Chie blew up and sank in the Yangtze Kiang, 70 miles from here, last night.

Among the 300 passengers aboard the vessel were a hundred Chinese soldiers who were thought to have thrown their cigarette stubs into the cargo, which was principally cotton.

An explosion followed, spreading fire in the hold. Most of these on the boat jumped over the side where a revenue cruiser was able to pick up a few survivors.

### ARKANSAS LEGISLATOR SHOT, SALESMAN HELD

Little Rock, Ark.—(P)—W. U. McCabe, representative from Baxter-  
ton in the Arkansas state legislature, was shot and seriously wounded by a bullet which passed through the door of his hotel room early today. H. G. Lansdale, an Atlanta, Ga., traveling salesman was taken into custody after the shooting.

Officers said they found a small calibre revolver in Lansdale's room, across the hall from that occupied by McCabe. McCabe's condition was so critical officers were unable to question him. No charge was filed against Lansdale.

### CLAUSEN FOUND GUILTY BY JURY ON ONE CHARGE

Maximum Penalty on Count Is One Year in County Jail; Jury Out 5 Hours

HERMANN MUELLER

Bulletin—(P)—Progressives to former Chancellor Hermann Mueller, who is suffering from a recurrence of an old gallstone ailment, said today that he was "very low." An erroneous report of his death this afternoon was quickly denied.

Washington—(P)—In an attack upon the Hoover administration, Senator Norris, Republican, Nebraska, before the Progressive conference today called for the election of a Progressive president."

Washington—(P)—Shorter working hours and a wider distribution of wealth were suggested today to the Progressive conference as possible steps to a solution of unemployment and industrial troubles.

Robert P. Scripps, president of the Scripps-Howard newspapers, put the two-point proposal into plain words after similar suggestions had been voiced by President William Green of the American Federation of Labor.

Senator LaFollette of Wisconsin, whom the veteran Independent, Norris, said he looked upon to lead in the independent movement after he had passed on, presented the problems to the conference.

# Paper Company Fails In Attack On State RecapTURE Clause

## HIGHEST COURT WILL NOT PASS UPON QUESTION

Nekoosa-Edwards Co. Centers Futile Plea Upon Stream Navigability

Washington—(AP)—The Nekoosa-Edwards Paper company, operating paper mills at Port Edwards and Nekoosa, Wis., failed in its supreme court yesterday in its attack on the validity of the Wisconsin Water Power act recapture clauses.

It contended it had the right to build a dam on Four Mile creek, near Wisconsin Rapids, without a permit from the state railroad commission. Counsel explained the company objected to taking a permit because of the recapture clause under which the state at the end of 30 years would have the right to take the property at a valuation to be determined at this time.

In the oral argument it was brought out that the dam at a cost of approximately \$450,000 had been constructed without permission from the state. Counsel told the court that should the case be decided against his company, it would be required to take out the dam at a loss of approximately \$700,000 because of the value of other property which would be destroyed by the removal of the dam.

Much of the company's argument was based on the question whether Four Mile creek was navigable in such a sense as to give the state authority to control the construction of the dam. It was insisted that while the state courts had found it navigable, the only determining factor was that at some time it might have been used for floating logs. The company had provided, counsel stated, so that logs and row-boats could pass the dam.

Refuses to Hear Counsel

The court indicated during the company's argument that the controversy presented no questions within its jurisdiction and declined to hear counsel for the state. This means, in the practice of the court, that on an early opinion day, the case will be dismissed.

The paper company appealed a ruling of the Wisconsin Supreme court, sustaining an order of the Wisconsin Railroad commission which imposed "conditions" under which it could pipe water.

The commission refused to issue the permit unless the company agreed, under the recapture clause of Wisconsin, to sell the works to the state or any municipality which should apply for them after 30 years.

The company took the position that it was the owner of the land on Four Mile creek which would be affected by the dam, as the stream was non-navigable and therefore not within the jurisdiction of the state and that the dam would not interfere with the use of the creek in logging operations.

The Wisconsin Supreme court held, however, that the creek is "floatable," and hence navigable and that the company had no vested rights in its use which were infringed by the commission's order.

This was the second Wisconsin case involving the recapture clause carried to the Supreme court of the United States. The first case was appealed by the Fox River Paper Co. of Appleton and in that instance the high court unanimously upheld the constitutionality of the Wisconsin recapture law.

## NAME COMMITTEE FOR CHICAGO WORLD FAIR

Madison—(AP)—Gov. Philip LaFollette has signed the bill creating the Wisconsin Chicago centennial of progress committee and appropriating \$2,500 for its expenses.

Under the terms of the bill, the commission will be composed of three senators, two assemblymen, and three citizens appointed by the governor. Its purposes, as stated in the measure, are:

"...to investigate, prepare and report on plans for the adequate presentation of the progress of this state and its agricultural, industrial, recreational and educational advantages at the Chicago centennial of progress to be held in the year 1933."

The committee is to report to the legislature on plans before the end of the session.

## ODRER INSTALLATIONS ALONG S. RIVER-ST

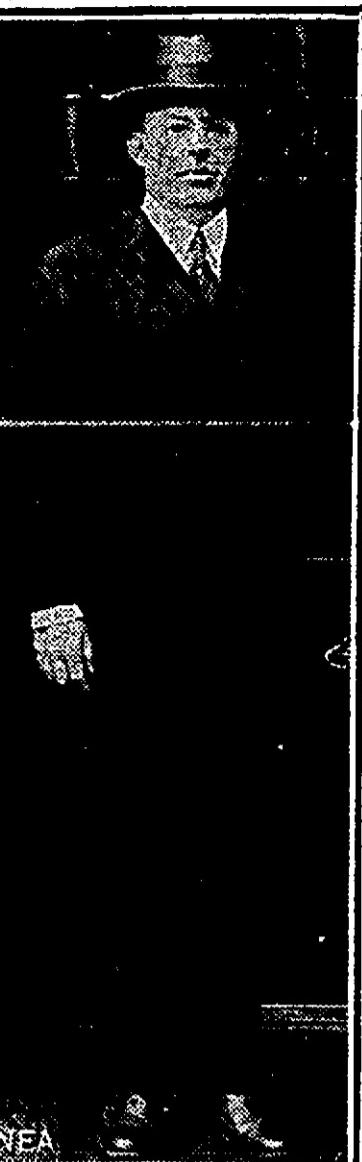

Property owners on S. River-st have been notified to install all water, sewer and other underground connections before the street is paved this spring. The street will be paved from Lawe-st to John-st.

## Not just for COLDS

The blood-purifying effect of quinine and the cleansing work of the gentle laxative in Grove's Bromo Quinine fortifies the system against germs. But so many ailments can develop from a mere cold, it's not to be trifled with. Take a few tablets of Bromo Quinine and eliminate the danger.

## OPPOSE EFFORT TO REDUCE RATE ON SMALL LOANS

Solons Told 1 1-2 Per Cent Monthly Maximum Would Kill Finance Firms

Madison—(AP)—Testimony in opposition to the Hall bill, fixing the maximum interest rate on small loans at 12 per cent a month, was before the senate committee on corporations and taxation today.

William J. Morgan, counsel for the Household Finance Co. told the committee yesterday that such a maximum would drive the legitimate financing companies from the state and leave the field to loan sharks.

He said similar bills are proposed in other states, adding that the belief that they are sponsored by loan sharks. Loan companies would lose money on loans under \$100 at a 12 per cent rate, he said.

Dwight Hoopingarner, New York, testified in a similar vein as a representative of loan companies. He was registered, at the request of Lieut. Gov. Huber, as a lobbyist.

Mr. Huber proposed a change in the small loans act, but would not commit himself before the committee on the 12 per cent maximum. He offered an amendment to the Hall bill, by which the industrial commission would be empowered to set a maximum rate which would not exceed 24 per cent per month. The 42 per cent per year rate he contends is now allowed by the state law is unjust, he held.

John R. Commons, University of Wisconsin economist, told the committee he favored the Huber amendment but was against the 24 per cent limitation. He would have the industrial commission put a capitalization of at least \$100,000 on loan companies to "keep out the small people." He expressed the opinion that both the borrower and the dealer would benefit if the business was restricted to four or five companies in the state.

Among those testifying for the 12 per cent limitation were John Corbett, representing the Brotherhood of Locomotive Engineers, and Assemblyman David Sigman, Two Rivers.

Install ELEVATORS IN ZUELKE BUILDING

Installation of two elevators in the new Irving Zuelke building is rapidly nearing completion. Most of the preliminary work on one elevator has been finished, and workmen are erecting steel for the other. It is expected they will be ready to put into operation within the next two or three weeks.

One building permit was issued Wednesday by John N. Welland, building inspector. It was granted to the Outagamie Equity Corporation, to install gas tanks at 320 N. Division-st, cost \$450.

Show with mannequins at Murray, Inc., the Fashion Shop's showing, and the showroom displays of seven automobile dealers.

## Look Young With Mello-glo

Beautiful women, admired for youthful complexions, use MELLO-GLO, the new wonderful French process face powder. Purest and smoothest powder known. Stays on longer. No flaky or pasty look. No grime or grit. MELLO-GLO prevents large pores and never smarts or feels dry. Blends naturally with any complexion. Demand Mello-glo. Adv.

Today, the first shopping day of Spring Opening, was ideal for creating interest in new spring merchandise. Clear, warm, with bright sunbeams down, the need for new spring things became more and more apparent.

As the Spring Opening progresses,

merchants will continue to give a free theatre ticket with every five dollar purchase until Saturday night.

These tickets are good until April 1.

Style programs for tonight include the J. C. Penney Co.'s presentation at the Fox theatre, a style

## BELIEVE MORE BUILDING WILL BE DONE HERE

**Construction and Supply**  
Men Are Optimistic  
Over 1931 Outlook

Although present indications are that 1931 will witness an increase in the number of buildings constructed in Appleton compared with recent years, construction and building supply men agree that the outlook for the remainder of the year is somewhat problematical.

At the present time the cost of building materials is from five to 15 per cent lower than last year, but there is no positive proof that the cost of these materials will not increase, according to supply men.

Within the next month or two, manufacturers of lumber and other home materials will hold conferences to ascertain the general trend of the economic situation, and it is expected that they will arrive at certain conclusions as to the prices which will be set for the remainder of the year.

Erection of the new postoffice, on which construction work will get underway within the next week or two, probably leads the building program here next summer.

**Plan Buildings**  
Several industrial plants are contemplating construction of additions, while other firms are having plans and specifications prepared on new buildings and additions. No definite

building plans have been adopted, however.

There has been no definite increase in the number of homes and other buildings so far this year but indications are that there will be more residences constructed here next summer, judging from plans under preparation by builders.

Building permits granted in January and February do not show an increase over the corresponding months of last year. During last January there were only eight permits granted for buildings estimated to cost \$9,500. Two permits were granted for homes to be erected at a cost of \$5,000.

Last month three permits were granted for the construction of new homes estimated to cost \$12,300. Last year in January there was one permit granted for construction of a home at a cost of \$6,500, while in February, 1930, there were two permits granted for the construction of homes estimated at \$8,000.

1928 Was Big Year

A comparison of building programs from 1927 to 1930 shows that 1928 witnessed the most extensive home building. In 1928 there were 153 permits granted by the building inspector for homes estimated to cost \$1,054,400.

There was a marked slump last year under 1929 when 122 permits were granted for construction of residences at a total cost of \$543,950. In 1930 there were 95 permits issued for homes at a cost of \$497,400.

They point out that there are many factors which should serve as an incentive for home planners to build now. Building materials are way down in price, labor is plentiful, and money is easy, they stated.

A survey is now being conducted in Appleton to ascertain the number of vacant houses and building places by the building committee of the Appleton Citizens Committee on Employment. Data gathered thus

## Many Spring Styles In New Footwear Shown Here

The trim beauty of spring footwear gives the finishing touch that is need to set off the charm and style seen in this season's costumes. Slippers with a single strap are being shown in Appleton shops for the more informal afternoon wear, generally seen with a touch of snake or lizard trim at the instep. Soft kinds in black and a dark shade of blue are very popular.

Tie pumps that hint of an oxford style are being worn for street in shades to blend with a street cos-

far reveals there are 32 vacant homes and four vacant building places.

This committee also hopes to find out how many vacant lots and apartments there are in Appleton, and how many lots there on which homes can be constructed.

**Dealers Optimistic**

Builders throughout the state have established an optimistic viewpoint towards building programs during the coming years, judging from reports submitted at the recent convention of the Master Builders' association at Milwaukee.

They point out that there are many factors which should serve as an incentive for home planners to build now. Building materials are way down in price, labor is plentiful, and money is easy, they stated.

One building supply man stated that his firm is now receiving 80 cents and less for every \$1 worth of building material. He pointed out that this condition has not prevailed in the past 10 or more years.

tume. Especially smart are the all-over lizards and snakeskins, toned in neutral tans and greys which will go especially well with printed frocks for the mid season.

**New Punched Shoes**

Among the newest styles of foot-

ware for street are the punched shoes creating their own unusual design through the punchwork.

Heels are medium high, tending toward a Cuban size. They portray neatness that enhances business or informal outfit. One pair of these punched models had a square-cut vamp, narrow last, with the design on the lower portion of the shoe, lending a two-style treatment to the shoe.

For spectator sportswear, women will wear pumps with medium high heels, of two tones. These will combine the convention black and white always popular for the summer season, and attractive combinations in brown and tan.

Contrast is developed in an evening or formal party ensemble. Colorful shoes that repeat a certain high shade of a chiffon print are worn with the printed tea frock. High shades in direct contrast with the gown itself will be seen for formal wear. Evening shoes match the wrap and jewelry accessories.

As an indication for summer and warm weather wear, blond shoes are being shown. These are in pump and slipper styles.

Blue shoes are extremely popular this season, since the skipper blue is a prominent costume shade in coats, suits and hats. Blue costumes

## SELECTED AS JUDGES IN ORATORICAL MEET

The Rev. R. A. Garrison and Norman Knutzen of this city and L. C. Clark of Kimberly will judge a stewardship oratorical contest for the Winnebago presbytery at De Pere Friday evening. Winners in the DePere contest will go to a state meet. The final contest will be held at the General Assembly which convenes at Pittsburgh, May 28.

Especially smart are the all-over lizards and snakeskins, toned in neutral tans and greys which will go especially well with printed frocks for the mid season.

**New Punched Shoes**

Among the newest styles of foot-

ware for street are the punched shoes creating their own unusual design through the punchwork.

neatness that enhances business or informal outfit. One pair of these punched models had a square-cut

vamp, narrow last, with the design on the lower portion of the shoe, lending a two-style treatment to the shoe.

With the shoe that is either of reptile or reptile trimmed, it is smart to carry a purse with a touch of reptile on it.

A total of 325 cases of pneumonia

were reported during January to the state bureau of communicable diseases, as compared with but 215 re-

ported cases for the corresponding month in 1930, when more typical winter weather prevailed.

Pneumonia in its various forms is a notorious hitch-hiker, the board

of health warns. It hooks rides upon the common cold, and if one is heedless enough to neglect the common

cold until it becomes a heavy one, one is a favored candidate for

bronchitis. Bronchitis to pneumo-

nia is achieved as swiftly as a single

step in letter golf.

Deaths from pneumonia totaled

1,151 last year, making a reduction

of 110 from the 1929 toll, according

to the bureau of vital statistics.

Avoidance of over-exertion and

over-exposure to cold or dampness

are urged by the board as important

preventative measures.

**LITTLE DISEASE  
REPORTED IN CITY**

Snowless and Sunny Win-

ter, However, Fails to Re-

duce Hazards

Although Wisconsin's snowless

and sunny winter, unparalleled for half a century, is by no means lessening the pneumonia hazard

throughout the state, Appleton has

had very little of the disease—or any

other illness—this year, according to

Dr. F. P. Dooley, city physician.

In Appleton influenza is reported

to the health department, but

pneumonia is not, so no official

check can be made. However, from

observation it would seem that

pneumonia has been cut down in

about the same proportion as other

diseases in the city this winter.

A total of 325 cases of pneumonia

were reported during January to the

state bureau of communicable dis-

eases, as compared with but 215 re-

ported cases for the corresponding

month in 1930, when more typical

winter weather prevailed.

Pneumonia in its various forms is

a notorious hitch-hiker, the board

of health warns. It hooks rides upon

the common cold, and if one is heedless

enough to neglect the common

cold until it becomes a heavy one,

## BEST FIGURE IS OFFERED BY OSHKOSH FIRM

Supervisor Niesen Objects to Purchase of Gravel Out of County

Bids for the new bridge to be constructed over the Fox river at Kaukauna on Lawest were opened at the offices of the district highway engineer at Green Bay Thursday morning. The bid of C. R. Meyer and Son Construction company of Oshkosh was low, and Stephens Brothers, St. Paul were second low. Seven bids were submitted.

The C. R. Meyer and Son company bid was \$207,825, the job to be completed in 240 working days. The St. Paul company's bid was \$211,554.66, it was specified that the job would be completed in 200 working days.

Specifications for the new bridge reveal that it will be 656 feet long, will have a 36 foot roadway, and two six foot walks. The present bridge was a 24 foot roadway and two narrow walks. It will be constructed principally of concrete. The present structure is of steel. Asphalt planking will be used as flooring for the bascule leaves, but the flooring of the remainder of the bridge will be concrete.

The bascule lift across the navigation canal will be of two leaves, each 45 feet long and giving a 30 foot opening.

### Niesen Objects

Objection to part of the specifications provided by the state highway department was made by John Niesen, member of the Outagamie-co highway committee. The specifications state that gravel used in construction of the bridge must be secured from the Elkhart Lake Sand and Gravel company. It was this feature that the Kaukauna supervisor opposed.

"You can stand on the present bridge," Mr. Niesen said, "and shoot a sling shot into one of the finest crushed stone quarries in this section of the state. Yet the state asks that materials be purchased out of Outagamie-co, a county which, with the city of Kaukauna, is paying \$100,000 of the cost of construction."

Mr. Niesen then indicated that the materials used in the bridge were not being objected to by the county highway committee but that it thought the state was unfair in not requiring that the materials be purchased locally wherever possible.

A conference of highway department officers was to be held Thursday afternoon over the question of materials.

## WOULD SEND BAND TO LIONS MEETING

## Appleton Club Wants to Enter Group in Oshkosh Convention Contest

Whether Appleton will enter a juvenile band in the distict Lions convention band contest next May was discussed by directors of the Lions club Tuesday evening. Each club in the district has been asked to enter a band of not more than 35 pieces. The winner of the district contest will represent the district at the International convention at Toronto in July. The project will be discussed at the next board meeting.

The directors suggested that the committee working on plans to bring the WLS barn dance orchestra here for a concert next month proceed with plans. The proceeds will be used for blind work in the county.

A report on plans for dedication of the monument marking the Treaty of the Cedars also was made to the directors. The board voted a subscription to the Boy Scout drive.

## ASSIGN COOKS PANTRY TO BOARD OF TRUSTEES

An assignment of all property and assets of the Cook Pantry to a board of trustees was filed yesterday at Green Bay with R. L. Dryer, county register of deeds. The notice of re-assignment was filed by Charles J. Cook, Jr., president, and A. E. Mierke, secretary of the company. Trustees named were: Herbert Welzel, Green Bay; Walter E. Henes and Frank St. Peter, of Menominee, Mich. The company pledged and transferred all assets and property to the trustees to carry on the business.

According to the record, the assignment was made because the Cooks Pantry, while having assets with fair valuation that exceeded liabilities required longer time to meet obligations that it felt it would like to ask creditors to wait without security.

The company has a warehouse in Green Bay and retail stores in Menominee, Coleman, Gillett, Seymour, Pulaski, New London, Stephenson, Green Bay, Sturgeon Bay, Manitowoc and Wausau. The company formerly operated a store here.

## KIWANIAN TO ATTEND MILWAUKEE MEETING

Nine or ten members of Appleton Kiwanis club will attend a Kiwanian dinner in Milwaukee Friday night. Raymond M. Crossman, Omaha, will be guest of honor. Mr. Crossman is president of Kiwanis International.

**FOR TAX INSTALLMENTS**

Food du Lac—(49)—Semianual payment of real estate taxes is provided in a proposed legislative bill framed by a special committee of the League of Municipalities. It was announced here today. The first installment would be payable Jan. 31 and the second July 31. It would apply to all local and state taxes.

## FEW DAYS REMAIN TO SEND FOR 1931 AUTO LICENSES

Only a few days remain for Appleton motorists to make application for their 1931 automobile licenses. Sunday, March 15, is the last day on which cars may be operated under 1930 licenses, according to Police Chief George T. Prim. After Sunday, Chief Prim said, officers of the Appleton department will immediately start a checkup and all cars still operating on 1930 licenses will be tagged. The chief said that he has repeatedly warned autoists to secure their licenses on time and that excuses could not be accepted.

"While there is a measure before the state legislature which provides for an extension to May 1 of the time to secure automobile licenses, this bill has not yet passed and the old law, setting March 15 as the final date, is still in effect," the chief said. "We have had no word from Madison that this bill would be passed and unless the measure is passed before Sunday, we shall enforce the March 15 regulation."

## NEED DEFINITE PROGRAM, BOB SAYS IN APPEAL

### Five Day Week and Six Hour Day Proposals Are Heard by Progressives

CONTINUED FROM PAGE 1

of economic research, also advocated establishment of some machinery such as an economic council.

He suggested organization of a system of public employment exchanges; greater control of planning of public construction and unemployment insurance.

LaPelle assailed proposals of industrial leaders for mergers and reductions of wages, asserting "their program means reduced living standards and permanent unemployment."

"Armed with a fundamentally sound program," he concluded, "supported by an aroused enlightened public opinion, we believe the Progressives can exercise their balance of power in the next and succeeding congresses for the public welfare, independent of party alignments."

At the conclusion of his address, LaPelle named the following committee on unemployment and industrial stabilization of which he will be chairman:

Stuart Chase, New York; Prof. Charles G. Fenwick of Bryn Mawr; Rabbi Edward L. Israel, Baltimore; Mr. John Fitzpatrick, Chicago; President William Green of the American Federation of Labor; William Haggard, Indianapolis; Mrs. Florence Kelley, New York; Isador Lubin of Brookings Institute, Washington; D. C.; Mayor F. Murphy of Detroit; D. B. Robertson, Cleveland; Fred W. Sargent, Chicago; George Klein, county nurse, who will talk on Proper Food for Children; and Miss Grignon, of the Appleton Free Public library, who will discuss Good Books for Growing Minds. In addition there will be a demonstration of 4-H club work by a team for the Wide Awake Forward 4-H club.

Tonight the program will include a talk on The Value of Periodic Health Examination by Dr. Carl Neidhold, some musical selections, and a one act play by the Badger Rural school Parent Teacher association.

Speakers Thursday afternoon will be Gus Sell, county agent, who will talk on Cooperatives; Miss Marie Klein, county nurse, who will talk on Proper Food for Children; and Miss Grignon, of the Appleton Free Public library, who will discuss Good Books for Growing Minds. In addition there will be a demonstration of 4-H club work by a team for the Wide Awake Forward 4-H club.

Tonight the program will include a talk on The Value of Periodic Health Examination by Dr. Carl Neidhold, some musical selections, and a one act play by the Badger Rural school Parent Teacher association.

Friday morning there will be demonstrations by women from home economics clubs, and a talk on The Rock Garden by Norman Morris of the horticultural department of the University of Wisconsin. Members of the Flower and Garden society have been invited. Friday afternoon there will be a talk by A. G. Meating county superintendent of schools, on the Educational Side of Travel, and another by Miss Wealthy Hale, of the home economics department at Madison, on Hand Made Rugs. There also will be a one act play by a group of women from Greenville, and a musical number by Mrs. Frank Doughty.

Speaker Thursday afternoon will be Senator LaPelle, who will talk on Cooperatives; Miss Marie Klein, county nurse, who will talk on Proper Food for Children; and Miss Grignon, of the Appleton Free Public library, who will discuss Good Books for Growing Minds. In addition there will be a demonstration of 4-H club work by a team for the Wide Awake Forward 4-H club.

## HEAVY DEMAND FOR OFFERING OF RAIL BONDS

125 Million, Largest Single Offer in 10 Years, Readily Taken

BY CHARLES F. SPEARE  
Copyright, 1931, By Cons. Press  
Wall Street, New York—(CPA)

The banking groups that Tuesday offered for sale \$75,000,000 of New York Central railroad and \$50,000,000 of Pennsylvania Railroad bonds, the largest amount of railroad securities to be offered at one time in 10 years, reported a heavy subscription for both issues and expectations of an early covering of the full amount.

As both bonds are legal for investment in the state where mutual savings banks are most prominent, and as the savings banks have been put to it for weeks to find an outlet for their increasing deposits, it was early apparent that they would be among the largest subscribers to these new loans. They were also taken in substantial blocks by the insurance companies which have ample funds to invest when attractive bargains are offered even though they are still being called on to make heavy loans to policy holders.

Within the past week there has been more interest shown in the bond market by the so-called "country banks," particularly those in New York, New Jersey and in New England. Their subscriptions to today's issues were also an important factor in the market's ability to absorb the new bonds, which during the day, sold at a slight premium.

Many Discussions

There are a number of phases of the current financing by the New York Central and Pennsylvania railroads that developed interesting discussions today. One of them was the possible effect of the offering by the New York Central on the directors of the road who meet tomorrow to consider their quarterly dividend on the capital stock. There have been intimations that, on account of the poor earnings this quarter, this rate might be reduced. Those who held this view Monday were not so confident of it Tuesday, believing that the management of the road would hardly take action of this sort after having just placed a large bond issue on the market. The last financing which the New York Central did with stock was in November, 1929, when \$35,669,900 of additional stock was offered on the basis of one new share for each 13 shares held. This offer was announced a few days after the market panic ended, in which New York Central declined to \$160 a share after selling at \$256 a share.

The policy of all American railroads that could carry it through was to finance with stock rather than with bonds in 1928 and 1929. Stocks were then popular; few were interested in bonds. This had the effect of establishing the capital of the carriers at a better balance than previously when they had been over-weighted with bonds.

Increased Ratio

In the use of the New York Central, the notice of capital stock to total capitalization rose from about 25 per cent in 1920 to nearly 42 per cent at the end of 1929. It is now slowly tending in the opposite direction, as is the case with other roads, inasmuch as there is now a better demand for railroad bonds than for railroad stocks.

The Pennsylvania has also been financing with bonds, having sold its last issue of stock in April, 1928, to which shareholders had the right to subscribe in an amount equal to 12½ per cent of their holdings. Pennsylvania shareholders later were given the right to subscribe to the stock of the Pennroad corporation which was organized by the Pennsylvania railroad and has made various investments in railroad and other companies in the interest of the Pennsylvania management. It has been taken for granted that some part of the proceeds of the bond issues of the Pennsylvania railroad in recent years was required to finance the purchases of the Wabash, Lehigh Valley and New York, New Haven and Hartford stock. Stockholders of the

## Haresfoot Players Will Take Road On April 7

Madison—(AP)—The task of turning college boys into graceful, charming ladies of the stage is underway for the 33rd time at the University of Wisconsin as the Haresfoot club prepares for its annual all-man show. The present vehicle, "It's a Gay Life," will go on the road next month opening at Oshkosh April 7 and making a swing through northern Illinois and Wisconsin.

To William H. Purnell, director of the club, falls the task of developing "chorines" and "ladies" of the cast. He selects the "actresses" from more than 150 candidates.

"I stress the fact to the cast that it must be natural and not obviously acting as female impersonators," Purnell says. "Theatrical productions which rely on men taking the parts of women usually are forced to do so because the deception becomes overdone."

As a result, Purnell immediately explains to candidates for parts that a Haresfoot production is a burlesque and not a bona fide musical operetta. He does not want his "actresses" to hide their boyishness, but at the same time he does not select the most awkward types because at best the most perfect college boy "woman" is quite unattractive.

In selecting Haresfoot women, Purnell looks for "a perfect specimen of boy, about five feet six inches tall, not too heavy, with good regular features, a well-rounded face, and good carriage." He says he has found military training helpful in giving a youth "good carriage."

With a student selected for the production, Purnell works on voice,

Pennsylvania who, some months ago, brought suit to force Pennsylvania directors to divest the road of holdings of the Lehigh Valley and Wabash claimed that the railroad had spent over \$106,000,000 to obtain the controlling interest in these carriers. An examiner of the Interstate commerce commission previously had indicated that the difference between the cost of carrying the investment in Lehigh Valley and Wabash and the return on it was a loss of \$2,500,000 a year. Since then the dividend on Wabash preferred stock has been passed and that on Lehigh Valley has been reduced. Both stocks are held as investments of the Pennsylvania company from which the Pennsylvania railroad has a substantial annual income return.

## Battery Business More than Selling Batteries, Says Willard Dealer

When you buy something and get expert service on it without charge for its full-life of useful operation, you naturally feel you've bought a bargain. But getting the expert service — also without charge — without buying anything is rare these modern days. That's the actual business operation of Mr. George Schwab, manager of the Gibson Tire & Battery Co., local Willard distributor.

"Of course, we are in business to sell new batteries," Mr. Schwab admits, "but nevertheless, we want our customers to get full life and value from the old, one first — regardless of its make. That is where Willard service comes in. If a car owner wants to take care of his battery himself, we will be glad to show him how, and assist him when necessary. If he does not want to give it personal attention, we will be glad to do so for him."

"Willard service includes some things that the individual owner cannot do for himself, such as taking voltage readings, cleaning and proper fastening of terminals and hold-downs. This work requires some special equipment that is hardly worth the while of the individual to purchase," Mr. Schwab claims.

"But whether you service your own battery or have a battery man to do it for you, be sure it is done," he says.

## AIR ROUTES TO BE MARKED BY BEAMS

Los Angeles—(AP)—One-way thoroughfares for airplanes have been adopted for the skytrains plying out of southern California. The invisible "tolls" which offer additional safety are radio beams, walling in the right of way.

Down the center of the boulevard in the skies is projected a white beam, which will register on the pilot's instrument board when he is on his course.

Should the airplane veer to one side, the white light will change to green, if too far in the other direction, a red glow will advise the pilot he's off his side of the road.

## THE BUDLONG BILL

It was a mistake for the assembly  
to kill the Budlong bill providing that  
when municipalities take over utility  
properties such utility properties even  
in the hands of the municipalities must  
continue to pay two-thirds of the taxes  
now paid by the private utilities.  
The only error in the bill was its failure  
to require the full payment instead  
of two-thirds.

And although it lost, the vote  
showed a strong minority willing to  
face the truth and eager to grapple  
with the serious problem of who is going  
to furnish the millions of dollars  
of taxes that we now receive from the  
utilities, if and when the cities take  
them over.

If the plan to have the public take  
over the utilities cannot stand one or  
two searching rays of sunlight it hasn't a great deal of merit. The Bud-  
long bill merely attempted to have the  
dreamer awake, to get him out of the  
roseate lethargy sometimes induced by  
socialistic theories as well as poppy  
seeds, and bring him back to the stern  
reality of the 1st and 15th of the month  
when there are bills to pay, and plenty  
of them.

There must be no juggling with the  
accounts in this utility matter. If public  
ownership cannot be made attractive,  
bearing the same burdens, paying the  
same bills, building up community  
enterprises, contributing in the same  
fashion to the expenses of government  
as private ownership does, then of  
course the truth should out. The set-  
up to be presented to the people for  
the final decision must be straight. In  
order to be that it must include the  
grief that is down the road as well as  
anything else.

But as yet the assembly does not  
want to know the truth. It shuts its  
eyes to everything but bliss. The  
charming siren of public ownership has  
captivated this lawmaking body. It  
sees her in its dreams and it dreams  
of her even in its waking hours. It  
thinks of her only as whirling around  
to the rapturous strains of music or  
strolling along in the golden moon-  
light. It is a case of love at first sight.  
But many another of these Romeo-Ju-  
liet affairs have found their way into  
the various courts of domestic rela-  
tions where charge and countercharge  
soon dissolved not only the bonds that  
tied but the affection which was  
pledged to last forever.

**APPLETON'S RETAIL BUSINESS**  
Figures on retail business for 1930,  
released by the United States department  
of commerce, afford additional  
evidence that Appleton is one of the  
really outstanding centers of the middle  
west. With a retail business of  
more than \$17,800,000 last year, it far  
surpasses other Wisconsin cities in the  
same population class and compares  
favorably with much larger cities.

The department of commerce figures  
indicate that retail business in  
Appleton in 1930 exceeded by from  
three to four million dollars the  
business transacted in Janesville, Manitowoc  
or Wausau, all cities comparable  
with Appleton. Retail business here  
was some \$325,000 greater than Fond du Lac  
which has a slightly larger  
population, and is within \$700,000 of  
the annual business transacted at Superior  
with its 10,000 more people.  
Oshkosh, with 15,000 greater population,  
reported a business only \$6,000,000 in  
excess of Appleton, and Kenosha twice as large as Appleton, did a  
retail business only \$7,000,000 greater.

Just why retail business in Appleton  
should be better than in other cities  
of comparable size is not easy to determine.  
Appleton is situated in a rich  
farming community, but this also can  
be said of other cities covered by the  
survey. Unlike some of the other cities,  
it is hemmed in closely by other  
trading centers, thus materially reduc-

ing the area from which it might reasonably expect to secure business.

The reason for this particularly excellent business showing undoubtedly will be found within the city itself. It is a reflection largely of the business practices of the merchants and the loyalty of Appleton people. The buying public here is confident that nothing can be gained by transferring its patronage to other cities, and the merchants here have justified this confidence by maintaining stocks and offering values that discourage trading away from home. Thus a large portion of that business which communities normally lose to competitors is retained for Appleton because of the business practices of its merchants.

Appleton too has strength in its diversified industry that assures a certain measure of prosperity regardless of general business conditions. Employment here has been sustained remarkably well compared with many other cities, with the result that the buying power of the people has not been materially diminished. This condition, too, is due largely to the foresight and the acumen of the merchants and manufacturers who make up the business life of the community.

Some weeks ago Mark A. Brown, president of the Harris Trust and Savings bank of Chicago, characterized Appleton as one of the two business bright spots of the middle west. He attributed this condition to its business people who "keep one jump ahead of their competitors." The report of the department of commerce bears out Mr. Brown's statement and should give additional encouragement to Appleton businessmen to continue the policies which have made for success in the past.

## SCIENCE VS. HISTORY

Ambitious biographers, by their relentless researches, are not the only ones bent on exposing the unreliability of traditions we have come to associate with the makers of American history. Science, it now appears, lends a helping hand.

At the University of Wisconsin the other day, Dr. J. H. Matheus, an expert in ballistics, announced that Daniel Boone, that hardy pioneer whose hair-raising exploits among the Indians thrilled us as youths, was really a terrible shot.

The smooth-bore guns they had in those days, the professor contends, weren't at all conducive to accurate shooting. So Dan'l couldn't possibly have done all those things attributed to him by the writers. Thus another tradition bites the dust.

If we must concede that this colorful Indian fighter was a bum shot, most of us will rightfully continue to regard him as a good scout. That is, unless additional research reveals anything to the contrary!

## WHEN MEN COMPETE WITH BOYS

Boys in White Plains, N. Y., who used to spend their summers pleasantly and profitably caddying on the golf courses, are probably the gloomiest lot of juveniles to be found in the earth's four corners. It's all because the unemployment bureau there has decided to give all caddying jobs to unemployed men.

However cruel this may seem to youngsters denied of their job, the scheme is undoubtedly an ingenious one, and one which deserves universal applause.

In times past men have competed with boys in selling newspapers, blacking boots and carrying telegraph messages. Now exigencies have caused them to encroach on their domain on the links.

It may not be a permanent arrangement but it is certainly more important for men to earn a living than it is for boys to earn pocket money, and the latter should unselfishly view it in this light.

**Today's Anniversary**

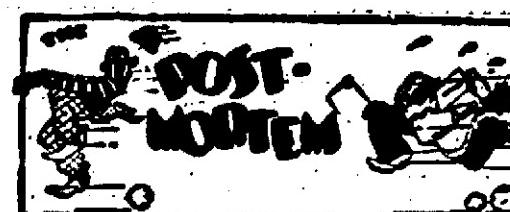

SUN YAT-SEN'S BIRTH  
On March 12, 1857, Sun Yat-sen, Chinese revolution leader, known as the Father of the Chinese Republic, was born of native Christian parentage in the Kwantung province.

Following his course at the new medical school in Hongkong, of which he was the first graduate, he devoted himself to secret activities aiming to overthrow the Chinese monarchy. His personal influence had much to do with the inner organization of the 1911 revolution against the Manchu government.

Sun was in England when the revolution began. He returned to China, and on Jan. 5, 1921, took the oath of office as provisional president of the new republic, at the request of the national convention at Nanking. He resigned the next year, but when the president who succeeded him died, Sun put himself at the head of a movement for the independent republic of South China.

He died of cancer in Peking.

The previous night was one of the coldest of the winter. At 5:30 that morning the mercury dropped 9 degrees below zero.

WELL, yesterday was a nice day to pay the income tax, anyway . . . and to resume conversation about the beauty of Appleton as a balmy winter resort . . . maybe the danger of a tough winter this spring has been passed by . . . as somebody said, we had a nice spring this winter . . .

Another lady in Kansas City has broken up her home over a bridge game. Gosh, they take that game seriously down in that town. But she didn't shoot him—he just divorced her after he bawled her out during a hand of auction. Maybe it was contract except that we can't figure that one out . . .

Somebody should have pointed out the advantage of a nice gun. Life insurance men, perhaps.

Popularity is a nice thing, but maybe Mahatma Gandhi isn't quite so fond of it. Down in India, the popular way to bring back prosperity and receive a couple of blessings from heaven is to touch Mahatma's garments. All very well, and not bad psychology.

But on Tuesday, 100,000 people got the same idea at once.

Al Capone could give Mahatma a couple of tips on how to keep from getting the bum's rush. Al has the neatest bodyguard system you ever saw.

Find the fellow who didn't send an entry into that cigarette contest, we says the other day. And that's right.

A day before the contest closed (a week ago yesterday) more than 600,000 essays had been received and it was expected that a few hundred more thousand would come in post-marked before the deadline.

So, if you're planning to go to Europe on the money you're going to win, maybe you'd better hold off your reservations.

From Chicago comes the story about the man who was shoveling snow on Rush street after the blizzard. It seems that he had a terrible time with one shovelful, but finally he heaved it into the wagon. The man in the wagon poked into the shovelful, and whatayathink he found?

A couple of half-pint cans with the drivers still sitting in them and swearing something terrific.

We paid the federal income tax yesterday. It wasn't so much, but it looked gigantic compared to the bank balance. Oh well, the bank says right on its window that it has a couple of million in the sock. Even if our account is O. D., the bank has lotsa money.

And from the bills that Congress passed, the government can easily use the taxes.

## Just Folks

By Edgar A. Guest

## THE SIDEWALKS OF LIFE

Up and down the sidewalks romp the children at their play while in and out among them walk the weary folks and gray.

And in and out among them walk the seekers after fame, But I think the while I watch them, they are very much the same.

The little girls are wheeling waxen dolls up and down. The little boys are soldiers on their way to sack a town. But the older women trundle real babies in the sun.

And are doing for a purpose what the children do for fun.

The little men and women have their cares and sorrows, too. They suffer disappointments, as the weary grown-ups do.

There are blockaders and quarrels on the sidewalk every day which sound very like the wranglings of the wrinkled brows and gray.

Up and down the sidewalks romp the children at their play.

While in and out among them grow-ups hurry on their way.

And I think the while I watch them, when life's story's fully told,

The burdens of the children are the burdens of the old.

## NIGHTmares AND OTHER TERRORS.

Five-year-old boy has very disturbing dreams and when parents try to quiet him, he screams with fright, trembles and has a wild look in his eyes. It takes him ten minutes to get over this spell. What should be done about it?

Perhaps children with neuropathic taint are more likely to have such nightmares or night terrors, but what of it? Let the parent who contributes no such taint to his offspring throw the first stone.

Frankly I know very little about the trouble. What little I think I know I have gleaned mainly from the letters parents have written me about their experiences. I have found precious little help in medical literature.

Answer—I do not believe hard water has anything to do with your trouble. There is no reason to imagine that hard drinking water causes any illness or disease. I am not able to advise whether the water softening equipment which any plumber can install would correct the hardness in the water. You might get distilled water to drink, when there is no rain water or snow water. Ordinarily, as long as the taste is satisfactory, water is never too hard for health.

Then there are some cases where it seems fair to ascribe the trouble to nose or throat obstruction by tonsils, adenoids or other lesions, for upon the proper treatment of such obstruction parents find that the night terrors cease.

Along the same line of obstruction to breathing I believe that insufficient ventilation, that is, lack of a good draft, in the sleeping room, is a common exciting factor of nightmares and night terrors. Likewise I think any excess of comfort will bring on bad dreams.

Whether faults of diet are important I am unable to say. Many good doctors consider incorrect diet a cause of night terrors, but just how this works is not so clear. On general principles it would be well to correct any errors in diet or in eating habits. In this respect I would remind parents, teachers or guardians of children that no child under 16 years of age should be allowed to drink tea, coffee or cocoa, but if the precocious youngster must indulge in any of these nerve, heart and kidney stimulants, the least objectionable is cocoa.

The latter-day psychologists—that almost any one with a smattering of knowledge and a gift tongue—make much of the alleged evil of excitement of the young mind by movies, especially evening shows. I don't believe that does any more harm than did the good old blood-and-thunder "dime novels" we enjoyed in our adventurous days. Of course the atmosphere and personal contacts in the movie theater are usually anything but wholesome physically, and the less time anybody spends there the better for his health. Without regard for the powder you recommend for roaches, and put it around the corners where they ran, and it put an end to the nuisance for us. (L. V. M.)

Answer—which brings the total cost to 14 cents—including your request for the directions and all.

The embassy was in mourning. One sensed that fact from the time one arrived until one departed. Even the liveried butler who opened the door and conducted visitors to the ambassador wore a somber expression.

All social engagements were canceled and no new ones made until the atmosphere cleared. The ambassador didn't even have time for his favorite cat—and he is among the capital's most enthusiastic feline fanciers.

His whole time was occupied with affairs of state. His constant lament was that there were only 24 hours in the day in which to attend to the many details.

**The Tinymites**  
By Hal Cochran

THE rain clouds drifted out of view and so the old rain man was through with brandishing his trusty spear. He slowly walked away. The Travel Man said, "You can see that he's as happy as can be. He thinks he's hit lightning, and to him that's work, not play."

"How funny they are over here," said Clown. "Seems to me they fear a lot of things that we don't mind. I'm glad this isn't home. Or wonderful things we get our fill and every time it brings a thrill. I suppose it'll always be that way, wherever we may roam."

The Travel Man then said, "Well, say I think we'd best be on our way. The Zululanders have a lot of things you haven't seen. We'll walk all through the village, where we'll view fine sights and get fresh air. Try not to miss a single thing. Just keep your eyesight keen."

"Don't worry," Clown then replied. "I'm thrilled at everything that's sped. I never will forget this place. The natives treat us great. Most everywhere we chance to go, the people always seem to know that we are friendly visitors." And then he added, "Wait!"

"A woman's coming down the road and, gee, she has a funny load. Look on her back. A youngster there, and holding on real tight, I'll get a ride like that is fun, but my, I wonder how it's done?" They all agreed with Clown that it was funny sight.

The Travel Man then said, "Well, that's how the mothers over here tote babies round about. The baby's safe as it can be, and both the mother's arms are free. You'll note that youngster isn't scared. He knows he won't fall out."

(Copyright, 1931, NEA Service, Inc.)

Answer—No, no, I can give no such information. If you tell me you have the disease in question I would be glad to offer whatever advice I can give. But I decline to give morbid information indiscriminately.

Hit Him Again, McCloskey.

Keep up the good work against so-called nervous breakdown. A member of our family has been getting by with that for years, but as you say, the rest of the family have suffered as much as she . . . worst of it is that some of the leading doctors here encourage her in the notion that it is just her sensitive nerves . . . (L. E. E.)

Answer—but what does it profit me to get all the neurotics sore at me and also all the quacks within the regular profession? The people who lead a soft life of nervous im-

## G. O. P. WORRIED BY CONCLAVE OF PROGRESSIVES

Questions Asked by Watson Indicate Anxiety of Regulars

BY DAVID LAWRENCE  
Copyright, 1931, by Post Pub. Co.  
Washington—(CPA)—The Republican regulars are far more worried about the meeting of the Progressives here today than are the Democrats.

The regulars are beginning to ask questions in an effort to get the Progressives to formulate their principles in definite language. The interrogatories propounded by Senator Watson, Republican leader of the senate, were not accidental any more than was the statement issued by the Republican national committee to the effect that the American people are tired of politics at the moment. This is an attempt to pour cold water on the recent gathering of the Democrats as well as the conference of Progressives.

While the Progressives are not yet ready with any specific proposals they are not slow to bring them out if they are challenged. There will be no hesitancy about answering Mr. Watson's questions. The big point is whether the Progressives can achieve any kind of harmony within their own group. This is probably why the Indiana senator had in mind when he asked all the embarrassing questions he could devise.

The regular Republicans know the meaning of the Progressive conference just the same. It is the forerunner of action at the next session of congress—an attempt to drive both parties into acceptance of certain Progressive doctrines as the price of Progressive support in organizing congress.

The upshot of the present meeting will be an arrangement to continue the agitation for Progressivism together with appointment of committees to prepare specific legislation for the next session. As for the declaration of a political holiday advocated by James Francis Burke, general counsel of the Republican national committee, there is no likelihood of any serious effort to carry it out. The Republican national committee itself is preparing to drive in the middle west to persuade the farmers that the agricultural policies of the Hoover administration have saved them from a worse condition than now prevails. It is the intention of the Republican leaders to wage the battle continuously from now on—they are not anxious for a cessation except on the part of their opponents. The Democrats on the other hand are grinding out their publicity every day and are looking on at the Progressive conference with a feeling that it means more trouble for the Republican than for the Democratic party.

There is a confidence among Democratic leaders that with the 1932 campaign coming on there will be less than a handful of Democrats irreconcilable against party policies and programs, whereas the Republicans face a real split in both houses. For political purposes, too, the Democrats are in the habit of accepting a good many things proposed by the insurgent Republicans, so when the Progressive conference has concluded the Democrats are likely to be found agreeing with a good deal of it. That is one reason why Senator Watson while aiming his questions at the Progressives is really looking beyond them to the Democrats who, through Chairman Raskob, have just announced their intention of treating business and industry in the future with more consideration than in the past. Far from a political holiday it looks as if the adjournment of congress is going to mean even more politics.

## 250 PEOPLE ASK TAX EXTENSION

Affidavits Seeking More Time Must Be Filed by Saturday Noon

About 250 affidavits have been filed with Fred E. Bachman, city treasurer, by persons who are unable to pay their taxes. Saturday noon is the deadline for filing the affidavits, both the state law and the resolution passed by the local council prescribing that all blanks be filed before March 15.

Persons who have not paid their taxes and do not follow this procedure by Saturday noon will be subject to the same penalties imposed in other years. Unless an affidavit has been filed, all delinquent taxes turned over to the county treasurer next week will draw a two per cent penalty and a collection fee of one per cent for each month.

## PLEASANT RELIEF FROM CONSTIPATION

Shoulders droop under weight of years. Young, yet beauty has fled. Cheeks are sallow and drawn. Unsightly pimples. Keep your system clean and you keep the beauty of youth. Its energy. Its irresistible charm. Then life is not a failure.

Clogged bowels and inactive liver cause poisons to seep through the system. Health vanished and with it beauty and energy. Dr. Edwards Olive Tablets will help you from this dark hour. For 20 years they have been prescribed in place of calomel to men and women seeking health and freedom from constipation. They act easily and smoothly. No dangerous griping. Take nightly before retiring. Results will amaze you.

Thousands of men and women could never be without Dr. Edwards Olive Tablets, a vegetable compound. Know them by their olive color. 15c 30c and 60c. All druggists. adv.

## Who's Who On The Appleton Post-Crescent

Number 4

—Harwood Photo.  
W. F. Winsey.

This is the fourth of a series of articles about members of the staff of the Appleton Post-Crescent. The articles will seek to acquaint the readers of this newspaper with these persons individually and so will discuss the nature of their work. Members of the staff are presented in the order of their length of service. The fifth article will appear tomorrow.

W. F. Winsey, the farm editor of the Post-Crescent, is remembered by many in Appleton as the principal of the Third and Fifth ward schools and the Fifth Ward High school which he organized.

Mr. Winsey was a school teacher for twenty-five years in this city and a newspaper man for twenty years. He came to Appleton in 1890 to become the principal of the grade schools already mentioned.

His newspaper career really began back in 1878, when he was the printer's devil and typesetter for the Daily Post. However, it was not until 1911 that he began his editorial work seriously. When he first went to the Post his work included subscription soliciting and later he wrote editorials in emergencies. For several months Mr. Winsey wrote all the editorials, before he became the feature writer.

Mr. Winsey was born in Stour Bank, Wis., and spent his boyhood on farms in Wisconsin and Iowa.

His grade school education was obtained in Stour Bank and Alderson rural schools. He then attended Whitewater Normal school and later took up some special work in astronomy at Lawrence college.

While in school his special interest was in languages and debating. He used to enjoy fishing and hunting in his earlier years of newspaper work.

He and Mrs. Winsey own their home at 721 W. Thirdbd. Their children are Mrs. Maurice O. Klingler, Sayre, Pa., Mrs. Sellon Beau-

jeau, Neenah, Reid Winsey, Indianapolis, Ind., and Miss Helen Winsey, who lives with her parents.

The farm writing which Mr. Winsey has charge of now, enables the Post-Crescent to have a contact with the rural communities in the valley, impossible for the ordinary reporter to do. He reports farm meetings and relates any exceptional work being done among the farmers. Through the farm column the newspaper is able to urge the use of improved methods of farming and present new theories in farm marketing.

Mr. Winsey probably has a more extensive acquaintance among the residents of the rural communities served by the Post-Crescent than any other man in the county.

## Movie Stars Get Various Types Of Mail From Fans

BY JESSIE HENDERSON.

Copyright 1931, By Cons. Press Hollywood—(CPA)—They not only get fan mail, but different fan mail.

There's a typical Lew Cody letter, for instance. Cody receives few mush notes, perhaps because he is often cast as a roistering fellow admired by all, but true to none. Motherly old ladies write advice to him, worried young wives ask how to retain their husbands' interest, and flocks of children send him word that his comedy is funny.

Irene Rich gets the letters from women who want to remain young and handsome. Louise Fazenda, despite the fact that she usually plays a comic role, is swamped by personal problem missives; how to earn money, shall I have the operation, what shall I train a wayward girl, what college is best for my daughter.

Fans write James Gleason for advice on the writing game. As writer, actor, and director, he receives dozens of requests for jobs in those

fields as well as questions about how to break into pictures.

On the other hand, Lucile Gleason, his wife, has letters from mothers of boys concerning their sons. Shall they go to college? Does she believe in early marriages? Well, she and James were married at the age of 18.

The young girls have ganged up on Helen Chandler. Hundreds of them write to ask how she succeeded so young. They want to know if it was hard to get on the stage, does she like pictures, and how can they carve out a similar career?

William Beaudine, the director, has a typical fan letter which is perhaps the most delightful of all. One example of such a letter is to be found by his breakfast plate any day. It's from a very young boy or girl. Beaudine, father of four children, has directed many kid pictures.

I caught a bad cough. I saw my eye in the evening ruined! Mother came to the rescue with Smith Brothers' Cough Syrup. It worked wonders. My cough got better after the first spoonful. By night I had lost it completely! Lucille Gerrity, 32 West 53rd Street, N. Y. C.

## APPLETON POST-CRESCENT

### WOULD SYNCHRONIZE ENTIRE SIGNAL SYSTEM

The street lighting committee is considering a change in the control of the Morrison-st stop-and-go light which would make that signal a part of the rest of the stop-and-go system. At present the Morrison-

st light operates separately from the other five lights, creating an additional power expense of from \$10 to \$15 a month. The cost of changing the control, estimated at about \$100, would be earned within a year through the monthly saving.

Louis Luebie, city electrician, has been ordered by the mayor to install

single meters to serve both the fire and police departments, and the library and city hall offices. At present there are separate light and power meters for both the fire and police departments, and the library operates on a different light meter from the rest of city hall; a system which costs more than the single meter will.

Washington—From May 4 to 9, business men from 46 countries will assemble here to attend the world business conference held by the International Chamber of Commerce. The main topic of discussion will be the present world-wide business depression.

## Pick Groups To Plan Holy Name Rally

COMMITTEES for the Holy Name rally which will be held May 31 in Appleton have been selected by Gustave Kellen, Sr., general chairman. Alois Steegbauer will head the invitations committee and he will be assisted by Dr. E. J. Ladner, Conrad Verbrick and Richard Beelen.

Ralph Gee will be chairman of the publicity committee and F. N. Beilanger, John A. Bergman and Lynn Sheldon will assist. Other committees include: Finance, Joseph J. Plank, chairman; Paul Abendroth, Otto Hansen and Nick Dohr; reception, Robert M. Connelly, chairman; John Wood, Robert McGilligan and Louis J. Schweitzer; registration, Frank Schrimpf, chairman; George Mader, William Feron and Oscar Dorn; decorations, C. E. Mullen, chairman; Earl Fransway, Al Lewandowski and Henry W. Otto; bars, Bay F. Lang, chairman; George Barr, Robert Strassburger and Oscar Massonette; altars, Dr. William G. Kellen, chairman; Adolph Guyer, Edward Bodway and Henry C. Becker; parking, George T. Prim, chairman; Thomas F. Flanagan, Arnold Driesen and Peter J. Schwartz; parade, Maj. Charles A. Green, chairman; Roy Heinritz, Fred Schepler and Fred Heinritz; reviewing stand, Anton Brandl, chairman; Joseph Alferi, Leo Landrie and Anton Ellenberger, chairman; Lawrence Sonnen, Elmer Bleck and John Schilling; feeding visitors, J. Edward Murphy, chairman; William G. O'Neill, Raymond P. Dohr and George Stadler; music bands, George A. Schmidt, chairman; Charles Weinfurter, Daniel Courtney and Henry Kraus; musical director (singing), Prof. A. J. Theiss, park, Frank Groh, chairman; B. J. Shinners, John Vette, and Leon Wolf.

The general chairman and executive committee will meet Thursday night at St. Joseph's hall.

Miss Verona Thiel discussed the chapter on Missionaries at the meeting of the Young Women's Missionary society of Emanuel Evangelical church Wednesday evening at the home of the Misses Lynda and Esther Schneider, Mason-st. Miss Augusta Bethke presented piano solo. Plans were discussed for sending a box of articles to the Kentucky hospital. Eighteen members were present.

The Lutheran Confession was the topic presented by George Johnson at the meeting of the Brotherhood of Trinity English Lutheran church Wednesday evening the sub auditorium of the church. Twelve members were present. Albert Roehl and George Johnson were appointed to act as committee for the social meeting.

Dr. Charles A. Briggs will be the guest preacher at the Lenten services at Memorial Presbyterian church at 7:30 Thursday night. Miss Eloise Smeltzer will give a violin solo accompanied by Mrs. Marion Smith.

## MASONS PLAN DANCE PARTY FRIDAY NIGHT

All Masons, those persons having Masonic affiliations and their guests will be entertained at a St. Patrick dancing party Friday night at Masonic temple. Tom Temple's Orchestra will play the dance program which will include several novelty numbers. Arrangements are being made by the committee in charge to accommodate a large crowd for the affair.

The committee includes E. B. Morse, chairman; A. T. Gardner, G. C. Radtke, Mrs. H. Barnes and Alvin Woehler. Decorations will be carried out in green. Dancing will begin at 8:30 and continue until midnight.

## MRS. TROTTMAN TO BROADCAST D. A. R. TALK

Mrs. James Trottman, Milwaukee, retiring state regent of Daughters of the American Revolution, will broadcast a ten minute address at 4:55 Friday afternoon over WISI, Madison. She will talk on the work of the D. A. R. The station operates at 750 kilocycles.

## MRS. WATTS IN PIANO RECITAL

Mrs. R. J. Watts, assisted by Miss Lois Schilling, mezzo soprano, presented a piano recital at Peabody Hall Wednesday evening.

Mrs. Watts, a student of Gladys Ives Brainard, played a Bach Suite, and numbers of Debussy, Faure, Rameau-Godowski, Rubinstein, Carreno and Bridge. Miss Schilling sang selections by Campbell-Tipton, Richard Strauss, and Charles Wakefield Cadman. Miss Brainard played for Miss Schilling.

## PARTIES

Miss Viola Weber, North-st., entertained Wednesday evening at her home in honor of Miss Dorothy Bell, whose marriage will take place April 2. Bridge was played at two tables and prizes were won by Miss Bell and Miss Madelyn Bandoll. The guest of honor was presented with a gift.

**Old Fiddlers Contest**, Columbia Hall, March 17. Also Old Mouth-Organ Players Contest. Valuable cash prizes offered. Entries must be in by Sat., Mar. 14. Phone 5497, St. Mary's Parsonage, 522 W. 7th St.

Dances at 5 Cor., Sun. Nite.

## FIVE PASS SWIM TESTS AT Y. M. C. A.

Five girls of the Morning Glory troop recently passed their Girl Scout swimming tests at the Y. M. C. A. pool. They are Marion Kranhold, Eunice Ashauer, Helen Rosemeier, and Agatha Schmidt. Joan Conrad and Rosabelle Walters are working on their tests.

Local swimmers will not take part in the meet with Green Bay because of the illness of two of the Appleton girls. Registrations have already been sent to Milwaukee for Bluebell Ryan and Margaret Plank, who will enter the crawl and diving events, respectively, in the swimming meet March 25 at the Milwaukee Athletic club.

## Mrs. Jones Again Head Of W.C.O.F.

Mrs. Florenc Jones was reelected chief ranger of Women's Catholic Order of Foresters at a meeting of the court Wednesday night at Catholic home. Mrs. Magdalene Haberman was elected vice chief ranger to succeed Mrs. Agnes Schreiter, who has held that office for the past 12 years.

All other officers were reelected. They are Mrs. Mary Butler, recording secretary; Mrs. Mary Stier, financial secretary; Miss Mary Schreiter, treasurer; Mrs. Frances O'Keefe, Mrs. Hanna Green and Mrs. Nellie Verbrick, trustees; the Rev. J. E. Meagher, chaplain; and Dr. C. E. Ryan, medical examiner.

Conductor, sentinel and pianist will be appointed at a later date. Installation of new members and installation of officers will take place April 8.

Plans for a St. Patrick open card party to be held next Tuesday evening were discussed at the meeting of Ladies Auxiliary of Eagles Wednesday afternoon at Eagle hall. Mrs. Meta Currie will be chairman of the event.

Women of Mooseheart Legion met Wednesday night at Moose temple with 15 members in attendance. General business matters were discussed.

## CHURCH CHOIR WILL PRESENT MUSIC SERVICE

The annual Lenten musical service by the choir of the First Congregational church will be presented at 11 o'clock Sunday morning.

The choir and soloists, under the direction of Dean Carl J. Waterman, will present Mercadante's oratorio, "The Seven Last Words of Jesus on the Cross." The group has been practicing the oratorio for many weeks, and is prepared to give a stirring rendition of this sacred work.

LaVahn Maesch will preside at the organ, and the soloists will be Marion Waterman, soprano, Helen Mueller, contralto, George Bernhard, bass, Hazel Gloc, soprano, and Carl Waterman tenor.

Chorus and quartet numbers will include "Lo, upon the Cross Suspended," "When in Death's Cold Embrace," "Can the Almighty Father Leave Us in Anguish," and "Jesus Bow'd His Head."

## COUNTY TO DISTRIBUTE GASOLINE CONTRACTS

Contracts for gasoline for Waupaca will be distributed to dealers throughout the county instead of in one locality, it was decided at a meeting of the highway committee in the office of commissioner, John Huffcutt, Wednesday. Gasoline will be bought from the Manawa Farm Oil company, Iola and Clintonville; Wadham Oil corporation, New London; and Carl Denison, Bear Creek.

The contracts will be awarded at a meeting next Tuesday.

## SPEEDER PAYS FINE OF \$10 AND COSTS

Walter W. Winter, 125 N. Story-st., was fined \$10 and costs by Judge Theodore Berg in municipal court this morning when he pleaded guilty of speeding. He was arrested by Gus Hersekorn, motorcycle officer, for traveling 32 miles an hour on College-ave yesterday afternoon.

## BADGER BRIEFS

Beloit.—(AP)—The rheumatism Mrs. James Greene thought she suffered in her shoulder in reality was a two inch needle. As she leaned over to pick something off the floor yesterday, the needle forced itself out of the flesh. She believes she swallowed it when a child.

Madison.—(AP)—A special legislative committee and a citizens' representation will attend the Chicago centennial. Governor LaFollette last night signed a bill providing for the appointment of two senators, three assemblymen and three citizens as Wisconsin's delegates to the celebration.

## CAGE GAME POSTPONED

The game between the Bruins and Chicago Hottentots, scheduled for Wednesday evening at the Armory at Waupaca, was not played. The game has been postponed indefinitely.

## ATTEND MEETING

John Huffcutt, Waupaca-co highway commissioner, and the highway committee attended a meeting of the state highway committee at Wisconsin Rapids Thursday. Nine counties were represented at the meeting.

Auckland, New Zealand—Surrounded with fresh fish, the natives of Rarotonga island prefer canned salmon. They will work hard all day ashore for one can though a few minutes at the water would give them material for a square meal.

Paint prices are lower. Many new paint items now in stock. Outside House Paint \$1.95 gal. Red Barn \$1.25 gal. White Lead 12c per pound. Linseed Oil 88c per gallon. Gamble Stores, 229 West College Ave.

## Earns Title of "Miss Greece"

## Show Club How Deaf Are Aided

A DEMONSTRATION on handling deaf children was given by Miss Ida Gleas on the meeting of Franklin Mothers' club Wednesday afternoon at the school. Miss Gleas showed, with the aid of several deaf children, how to talk to them. Mrs. H. A. Downey presented a vocal solo. Twenty-five members were present.

The luncheon committee included Mrs. Theodore Jentz, Mrs. William Fischer, Mrs. Orville Ackmann and Mrs. Robert Whitefoot and the entertainment committee consisted of Mrs. H. Brehm and Mrs. Raymond Kleist.

Mrs. Margaret Delong, 422 E. Washington-st., was hostess to the Fortnightly club Wednesday afternoon at her home. Mrs. Stephen C. Rosebush reviewed "Four Square" by John Rathbone Oliver. Fifteen members were present. The next meeting will be March 25 in the form of a luncheon at the home of Mrs. Rosebush, 411 E. Washington-st. Assistant hostesses will be Mrs. E. S. Torrey, Mrs. J. L. Benton, and Mrs. Homer Benton. Mrs. F. G. Wheeler will have charge of the program on "Journey's End" by Sheriff.

Readings from the works of Paul Claudel were given by Mrs. R. V. Landis at the meeting of Town and Gown club Wednesday afternoon at the home of Mrs. E. L. Baker, 824 E. Franklin-st. Twenty-one members were present. The next meeting will be in the form of an open meeting at the home of Mrs. F. W. Clippinger, E. Alton-st., on March 25. Hostesses will include Miss Edna Wiegand, Mrs. W. E. Rogers, and Miss Charlotte Lorenz. Miss Anna Tarr will have charge of the program on Andre Maurois.

W. W. Krueger said wages paid by the Worden-Allen company were 6 per cent higher in 1930 than in the two preceding years and that thus far this year, they are 11 per cent higher than in 1920. He added that a 42 hour week is maintained, but said conditions are so bad "we will be lucky to finish the present month without a serious break in employment."

L. J. Parrish said the A. O. Smith corporation's increases are 93 times greater than its decreases.

## WOMAN GETS DIVORCE ON CRUELTY CHARGE

Mrs. H. Cherillie Brehm, 38, Appleton, was granted an absolute divorce by Judge Theodore Berg in municipal court Thursday afternoon from her husband, H. M. Brehm, 41, Appleton. Mrs. Brehm charged her husband was cruel and inhuman because he had an un governable temper and was moody. Mr. Brehm did not contest the suit and Mrs. Brehm received custody of a minor child and \$25 per month alimony.

The couple was wed at Kenosha, Nov. 4, 1913, and separated Feb. 17, 1931.

be the reader. Mrs. L. H. Moon will have charge of the magazine article, and Mrs. Herman Heckert will give current events.

The Sunshine club will meet at 2:15 Friday afternoon at the home of Mrs. Ted Sheerin, 124 E. Washington-st. Necnah, Mrs. Emma Hitchcock will be assistant hostess. Members will take the 1:30 bus Friday afternoon and get off at Stilp's corner.

The mid-winter party of the Monday club scheduled for next Monday has been canceled. The next regular meeting will be March 30 at the home of Mrs. O. P. Schlafer, 422 E. Washington-st.

The Teacups club will meet at 2:45 Friday afternoon at the home of Mrs. Eugene E. Gerhäuser, E. Alton-st. Mrs. W. H. Killen will

Then choose the time and the place. Many a good lesson has gone over the horizon without touching the field of the child's mind because it was untimely, or because it was out of place. When a child is weary withhold your word. Give him a chance to rest. Prepare his mood. Only when he is with you in spirit will it be possible for you to reach him.

Prepare the lesson for such children. Get as good a background for it as is possible. Have the story ready, the objects handy, the ideas fresh and bright. Summon up all your affection for the child. Renew your desire to be of real service to him. Keep thinking about him until you can feel as he does, or as near it as is humanly possible. Only in this state of mind can you get close enough to touch the hem of his consciousness.

This means that the teacher, parents too are teachers, must be the sort of person that such a child can get close to. There are some that are not and such must fail utterly in the attempt to teach. A hard eye, a set mouth, gritted teeth and clenched hands drive children away. Though they may be tied to the spot they are far distant.

Prepare the lesson for such children. Get as good a background for it as is possible. Have the story ready, the objects handy, the ideas fresh and bright. Summon up all your affection for the child. Renew your desire to be of real service to him. Keep thinking about him until you can feel as he does, or as near it as is humanly possible. Only in this state of mind can you get close enough to touch the hem of his consciousness.

Get his attention before you start to work. It is idle to teach one idea when a child's mind is full of another. His mind must be warmed to the idea you wish to present before it can enter. His mind must be friendly, and close to your own.

No thought of impatience should enter while you teach this troubled child. His mind is wide open now, it is merging with your own. It catches the slightest vibration and if there is so much as a hint of impatience or anger it flees to its refuge and you are once more outside and your work is to be done all over again. And next time it will be harder.

Class-room teachers will find this a difficult matter because while they plan and scheme to catch this one child, or the few like him, the big group of children are calling for attention. Special classes well trained teachers must be provided for the special child. Surely he is worth it.

Get his attention before you start to work. It is idle to teach one idea when a child's mind is full of another. His mind must be warmed to the idea you wish to present before it can enter. His mind must be friendly, and close to your own.

Get his attention before you start to work. It is idle to teach one idea when a child's mind is full of another. His mind must be warmed to the idea you wish to present before it can enter. His mind must be friendly, and close to your own.

**BRING BEAUTY TO YOUR NAILS BY DAILY CARE**

BY ALICIA HART  
The appearance of your nails is the thing that really gives hands that touch of beauty everyone wants.

One question that comes up eternally is how to care for the cuticle. One girl writes me that she is constantly bothered by hang-nails; another that she has half-moons only on her thumbs, that she can't seem to push the cuticle down far enough to make it stay where the other half-moons will show, without hurting her fingers.

In the first place, a general rule should be laid down not to cut cuticle. But you know nothing can be that clear cut, in this life. Practically everyone who has not had perfect care of her hands since childhood has to cut the cuticle until it is trained to stay put without growing back up onto the nail.

A good spring measure is to concentrate on your hands for a solid month. Begin with your nightly bath and scrub your little old hands until the nails are scrupulously clean.

While your hands are still soft from bathing, do one or two things. Either cut the cuticle carefully, with a good, sharp pair of manicure scissors that hasn't been used for anything but cuticle. Or apply one of the commercial liquid cuticle removers which most beauty parlors now market. Then rub into the finger tip, around each nail, warmed olive oil or melted vaseline that is still warm. Push back the cuticle as you rub this in.

For ten cents you can get a little contrivance that is both an orange stick and a brush to push back the cuticle. This is an excellent implement to wield when applying the warmed oil. Dip the brush end into the warmed oil and push back the cuticle as you apply it.

The next morning, after washing your hands carefully, again apply the olive oil or vaseline or cuticle oil that was made especially for this purpose. Every time you wash your hands during the day, push back the cuticle as you dry your hands. And most important of all, rub a little cold cream into your hands, and especially your finger tips, before you consider your hand-washing finished.

Hang-nails must be cut, carefully and perfectly enough so there won't be any bits left to catch on things. Be sure that you haven't an unconscious nervous habit of picking your nail with your other hand. That often is the cause of hang-nails.

(Copyright, 1931, NEA Service, Inc.)

**MY NEIGHBOR Says—**

To remove grease spots from the floor, sprinkle them with dry soda, pour over this boiling water, let stand a short time, scrub and the spot is gone.

The intestine on the back of the tail of a lobster should always be removed. The whole lobster is good to eat except the shell and claws, or stomach, which lies between the eyes.

A delicious frosting for cake is made by adding maple syrup to confectioner's sugar until it is of the right consistency to spread on cake.

Mice object to camphor. If it is put in places frequented by them it will drive them away completely.

Waffle sandwiches are good for Sunday tea. Put two hot waffles together with butter, honey and a teaspoon of cinnamon.

A dry cork will remove stains from plate or silver more quickly than anything else and of course, it never scratches. If the cork is cut to a point it can be worked into crevices which have become tarnished.

**To-night: Get Rid of BURNING FEET**

**The New Right Way THE OXYGEN WAY**

To take out the agony—banish all burning, aches and soreness—try the new oxygen way and in 15 to 20 minutes your foot troubles are over.

Just put two tablespoonsfuls of Radox in a gallon of hot water and soak your feet for 20 minutes—you never had such a joyous, invigorating foot bath in all your life—you can just feel all the acid and poisons coming out of the stuffed up pores of your poor feet.

Do this tonight and tomorrow your feet will be so strong and sturdy and vigorous that you can walk all day long without discomfort.

It's the oxygen in Radox that gets into the thousands of pores of your feet and chases out the poisons that have accumulated there for years—it's these acids and poisons that make your feet ache and burn and nothing in the world will get them out but Radox.

You can get a package of Radox at Voigt's drug Store, Schlitz Bros. Drug Co.—3 stores, or any good druggists—it is inexpensive and if it doesn't put new life and vigor into and bring blessed comfort to your distressed feet—money back, adv.

**YELLOW CAB CO.**  
527-529 W. College Ave.  
886 — PHONES — 434

Just three hundred years ago the only foods known in England were bread, meat and fish. There were hardly any vegetables, and few fruits.

The girl in the case is so far away that she has lost touch with you. Perhaps she has been wondering a good deal about your feeling for her. Perhaps she has been asking herself whether you really care. It's quite likely that, being a woman, she has begun to suspect rivalry—even if there is no cause for such a suspicion.

She can't talk these things over with you frankly. She hasn't the courage of her presence to give

**Your Birthday**

**"TISSETS."**

If March 13th is your birthday, the best hours for you on this date are from 11 a. m. to 1 p. m., from 4 p. m. to 5:30 p. m. and from 9:30 p. m. to 11 p. m. The danger hours are from 3 a. m. to 10:30 a. m. and from 6:15 p. m. to 8:30 p. m.

The planetary aspects of March 13th point to a day of opportunity and advancement, and all that is needed is courage to "wade in" and win. In the evening, pessimism will prevail, and relief should be sought in some form of light recreation.

A child born on this March 13th will possess, both in childhood and maturity, the qualities of a leader. Practically everyone who has not had perfect care of her hands since childhood has to cut the cuticle until it is trained to stay put without growing back up onto the nail.

A good spring measure is to concentrate on your hands for a solid month. Begin with your nightly bath and scrub your little old hands until the nails are scrupulously clean.

While your hands are still soft from bathing, do one or two things. Either cut the cuticle carefully, with a good, sharp pair of manicure scissors that hasn't been used for anything but cuticle. **To End a Cough In a Hurry, Mix This at Home**

To end a stubborn cough quickly, it is important to soothe and heal the inflamed membranes, get rid of the germs and to allow the system inwardly to help throw off the trouble.

For these purposes, here is a home-made medicine, far better than anything you could buy at 3 times the cost. From any druggist, get 2½ ounces of Pinex.

Pour this into a pint bottle, and add plain granulated sugar syrup or strained honey to fill up the pint. This takes care of the moment, and makes a remedy so effective that you will never do without once you have tried it. Keeps perfectly, and children like it.

This simple remedy does three necessary things. First, it lessens the germinated phlegm. Second, it soothes away the inflammation. Third, it is absorbed into the blood, where it acts directly on the bronchial tubes. This takes care of the moment, and makes a remedy so effective that you will never do without once you have tried it. Keeps perfectly, and children like it.

Pinex is a highly concentrated compound of genuine Norway Pine, containing the active agent of creosote, in refined, palatable form, and known as one of the greatest healing agents for severe coughs, chest colds and bronchial troubles.

Do not accept a substitute for Pinex. It is guaranteed to give prompt relief or money refunded.

\$1.00, \$1.35, \$1.65, \$2.00

sistence will win out in the long run.

You are intensely curious, not only about events, but about persons. Your instinctive desire to gratify your curiosity often impels you to overstep the bounds of natural courtesy. You are intuitive, and it is fairly safe for you to follow your inner promptings.

The chiefs of the north Australia tribes found that residents of Darwin and passengers on visiting ships were willing to pay to witness "cornborobes," especially the weird ceremony of "making" the tribal youths into men.

Chiefs who formerly hung about the outskirts of Darwin dirty and hungry, begging food and clothes, now are affluent.

**BLACKS "PLAY SAVAGE" TO ATTRACT TOURISTS**

Darwin, Australia.—(AP)—By permitting tourists to witness their tribal ceremonies, aboriginal blacks here have achieved prosperity.

The chiefs of the north Australia tribes found that residents of Darwin and passengers on visiting ships were willing to pay to witness "cornborobes," especially the weird ceremony of "making" the tribal youths into men.

Chiefs who formerly hung about the outskirts of Darwin dirty and hungry, begging food and clothes, now are affluent.

**20 BEN, NOT '29**

Traverse City, Mich.—Recently it was announced that motorists would be allowed to carry 1930 license plates during January, 1931. Ben Rhat evidently has bad eyes, for he read the bulletin in the paper and drove into town with 1929 license plates.

# EEKS BIDS ON SITES FOR NEW POST OFFICE

Proposals Must Be Submitted to Treasury Department by April 13

**Menasha**—A notice soliciting proposals for sites for Menasha's new post office was received from F. K. Hesse, assistant secretary of the treasurer, and posted by Menasha post office authorities Thursday. All bids will be opened at the office of the supervising architect, treasury department, Washington, D. C., April 13.

# PARIS,

*magic city . . .  
home of fashion  
. . . beckons . . .  
can be yours for  
so small a cost!*

MODES rise and ebb, flash across the style horizon and are gone. Nearly always are they projected from Paris. In this world of 1931, fashion modes make Paris as important as its art, architecture, commerce and history.

This is the Paris which, you, member of the Outagamie County educational pilgrimage will visit this summer. Life's gayest city is important in the itinerary of this European tour which costs but \$249 plus incidentals.

You need not be an educator to go. You need only be interested in your own advancement — which should never be halted. Travel is your teacher. You, no matter what your occupation, are the pupil.

The only requisite for a tour of Europe, via the Canadian Pacific over the short route to Europe (the scenic St. Lawrence), is that you start now to plan. The large number of reservations make possible the unprecedented low price.

It takes but a few hundred dollars to bring you thirty four glorious travel-days. The tour begins and ends at the Soo Line station on West College Avenue in Appleton. Every detail is arranged for you, all the guess work taken out. Travel Guild is working diligently with Canadian Pacific and the Meating forces to complete the arrangements for this Outagamie County European tour — the greatest value travel and education have ever known.

The tour is founded on the ideals of an educator in the interests of everyone who recognizes the need for further education. There is no better way to secure this broadening experience.

Nor is there a more economical way to secure attractive, chartered third class accommodations and expert guidance than through this tour. This tour was selected after months of investigation and found to be far superior. Clip and mail the coupon today.

## WICKERSHAM SURPRISED BY WET CRITICISM

Report More Comforting to Wet Than to Drys, He Declares

CONTINUED FROM PAGE 1

priated by their opponents. Apparently a large body of anti-prohibitionists expected the commission to find a way for them to secure liquor with ease and were enraged when we failed to do so."

Discusses "Differences"

Wickersham spoke at length upon the reported "differences" between the individual reports of the 11 commissioners and their brief conclusions. He contended the differences mainly were confined to remedies suggested for recognized ills.

"The report frankly recognizes the evils which have developed in the course of ten years of the administration of the national Prohibition that the great achievement of the act has been the abolition of the legalized saloon," he said.

The commission chairman acknowledged differences of opinion among the members especially over the proposal to revise the eighteenth amendment, but gave no figures on how the commissioners had divided.

"The question of alternatives to the existing order gave members of the commission great concern," he said. "Some of us, of whom I am one, feared that any of the modifications proposed would inevitably lead to the restoration of the licensed saloon, with all the evils of this institution in the past, and therefore were unwilling at this time to abandon all further efforts to bring about a general observance of the eighteenth amendment."

Wickersham listed the experts who are preparing reports upon various phases of crime, including data showing "much rank maladministration" regarding the deportation of aliens, a study of lawlessness of governmental officials and an inquiry into federal and state prisons and approximately 18,000 jails.

Despite the broadness of the field, he said, the commission on March 1, had on hand \$172,600 of the \$500,000 appropriated to it. This was due, he asserted, to work done without compensation by both commission members and experts.

"I cannot but think," Wickersham concluded, "it will be a misfortune if the development of our political conditions the only reward of such efforts should come to be misunderstanding, misrepresentation and abuse."

## PRESENT PROGRAM OF RURAL MUSIC

Students Show Parents What They Have Learned in New Course

A demonstration of the rural school music program was given at the Hickory Grove rural school, town of Dale, last week under direction of Miss Caryl Short, one of the rural school music supervisors. After the demonstration a program was presented by the pupils. The seventh and eighth grade civics classes gave a play, "The Naturalization of Mrs. Barnarski." Recitations were given by members of the first and second grades.

An interesting presentation was that of the third and fourth grade geography class about the country number entitled "Children of Foreign Lands". The pupils were dressed in the costumes of the children of many foreign countries. Each child gave a talk in which he presented the facts he had learned in geography class about the country he represented. Mothers who attended the program were presented with framed silhouettes of George Washington. These were made by the pupils.

Miss Evelyn A. Sweeney is teacher of the school.

Berlin—A roving radio reporter, H. H. Hellmut, is on his way to America to broadcast to the old world his impressions of the new. With his microphone under his arm he will tell of the skyscrapers of New York or the film lots of Hollywood. NBC will transmit by short wave.

### TO WHOM IT MAY CONCERN:

Notice is given to all persons, firms and corporations that the town board of the town of Freedom, Outagamie County, by resolution duly adopted at its meeting held on March 2, 1931, has suspended and prohibited the hauling of any load or loads over any and all highways in said town which are not a part of the state trunk highway system when the combined weight of the vehicle and the load shall exceed seven thousand (7,000) pounds; and that such suspension shall remain in force during a period beginning with March 2, 1931, and ending May 15, 1931. Any person, firm or corporation violating or failing to comply with this resolution shall be prosecuted under the provisions of subsection 10 of section 8510 of the Wisconsin Statutes of 1927, and shall be held liable for all damages which any such highway may sustain as a result of said unlawful operation.

TOWN BOARD OF TOWN OF FREEDOM,  
JACOB DE JONG,  
Clerk  
adv.

### POWER SWEEPER OPERATES OVER PAVED STREETS

The power sweeper has rolled out of its winter quarters at the street department barns this week, and all paved streets were given their first spring cleaning. Most of the pavements were free from snow, but occasionally the south side of east and west streets still held remnants of the winter's ice and snow.

The sweeper, as well as all other machinery at the street department, was painted and overhauled during the winter months.

### On the Air Tonight

By the Associated Press

Zelma O'Neal, the red-haired, blue-eyed young lady who originated "The Varsity Drag," and sang in such hits as "Follow Thru," entertains as guest star with Rudy Vallee and his Connecticut Yankees at 9 o'clock over WTMJ and NBC stations.

Toscha Seidel, internationally known violinist, will play a recital with concert orchestra over WISN and the Columbia network at 9:30 p.m.

Another program of lively dance music will be broadcast over WISN at 1:30 direct from the Grand Ballroom of Sam Pick's new Cafe Madison.

The tuneful melodies with which Richard Rodgers and Loren Hart built up their reputation as the most successful musical comedy composers on Broadway will be presented over WTMJ and NBC stations at 8:30.

WISN and Columbia present Lee Morse in a popular program at 8 o'clock, Ben (Hope You Like It) Berlin and his orchestra at 10 p.m., and the rollicking "Radio Roundup" of artists and music at 10:30 o'clock.

Lorna Fontin, numerologist, will continue her character delineations as revealed by her "science" over WISN-Columbia network at 8:15 p.m.

Selections from "Countess Marizza" will highlight the concert to be presented over WTMJ at 8 o'clock. Other features of the program will be a special arrangement of "Lonesome Lover" by the orchestra.

### FRIDAY'S FEATURES.

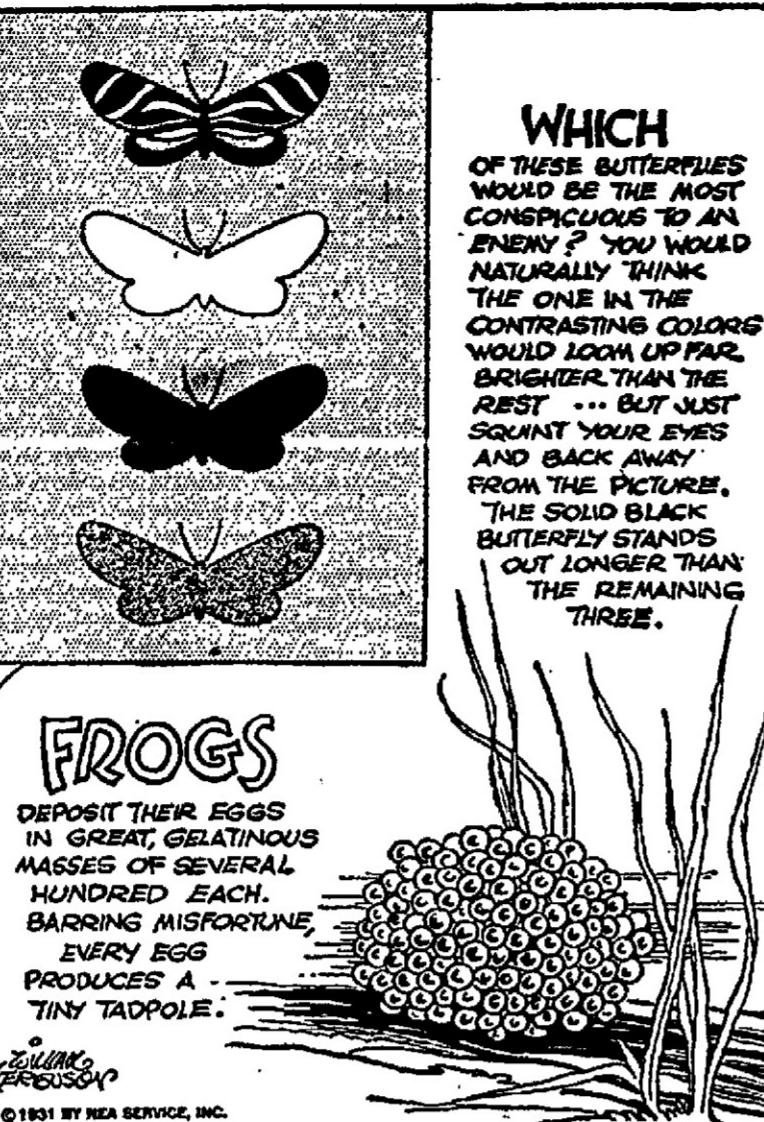

His Royal Highness, Edward, Prince of Wales, may be heard over WTMJ-NBC network at noon Saturday.

Friday night marks the premiere of a new weekly program over WTMJ. The program—a revue of entertainers appearing at the Wisconsin theater, Milwaukee, will go on the air at 8 p.m.

Three musical programs will be featured on WISN Friday at 6 p.m. in the "Happy Newsboys," at 7 p.m. in Glenn Welty and his orchestra from the Milwaukee Athletic club, and at 11:30 p.m. Paul Attoberry and his musicians from the New Club Madrid.

### DONATE LAND TO MAKE REPLATTING POSSIBLE

Agreements to donate land for street purposes were signed by Louis Steffen and Mrs. Gustave

Schaffelke at a public hearing conducted by the street and bridge committee on the replatting of the Denhardt additions at the city hall Wednesday evening.

Mr. Steffen is giving 30 feet on the north and south lines of his property, and Mrs. Schaffelke will give 30 feet on the south line. These donations will make it possible to abandon Jule-st, which now runs through the center of the plat and construct a 60-foot street on both the north and south lines of the plat. The engineer was instructed to draw up plans.

The improvement which will considerably increase the value of the property in the plat, will necessitate the moving of two houses. It has not yet decided whether the owners of property in the Denhardt plat, the home owners or the city will bear this expense.

Bloomfield, N. J.—A globule of glass with walls two-tenths-thousandths of an inch thick has won a prize for the most important change in manufacturing methods in 1930. Dr. C. M. Clark thereby got a \$500 award from the Westinghouse people. His device is used in the treatment of cancer and skin disease.

## DECREASE SEEN IN PAYMENTS ON INCOME RETURNS

Some Think Shrinkage Will Run from 50 to 65 Per Cent

BY CHARLES F. SPEARE  
Copyright 1931, By Com. Press  
Wall Street; New York—(CPA)—  
Federal income tax payers have been filing their statements earlier this month than usual. A large number have already been received at the office of the collector for the second district in New York, which covers the downtown business area including Wall Street. These are the returns which will be of greater significance than ever this year by reason of the small payments to be made on them owing to the losses that have been taken on securities and on business operations.

While it is yet too early to estimate the receipts of this district compared with 1930 and 1929, it is understood that there has been a very great falling off shown by the income statements already filed. The astonishing feature of these statements is the high proportion of those on which not a dollar of tax will be collected.

Tax income experts who have been busy for months making up the reports of Wall Street people, and this includes investors whose incomes range from \$5,000 to \$500,000, claim that the shrinkage in the income tax statements by their clients will be from 50 to 65 per cent compared with previous years.

Think Estimate Low

On this basis they feel that the government's estimate of a decrease of 25 per cent in income tax receipts for the first quarter this year is entirely too low, even though, on account of the comparatively small payments to be made, many individuals and corporations will return to the government the full year's payments on March 15 rather than split it up into the usual quarterly installments.

According to the income tax figures for 1928, which are the latest published in detail, 50 per cent of the taxable income was derived in that year from those in the income classes between \$3,000 and \$25,000. Their incomes were approximately \$13,000,000,000 of the total taxable amount of \$25,226,000,000. Tax authorities believe that the greatest falling off in tax payments this year will be by those whose incomes range between \$5,000 and \$40,000.

In the same compilation of income tax figures for 1928 it was shown that out of the profit realized from sale of real estate, securities and other kinds of property amounting to \$2,928,000,000, over 50 per cent of it was gain that came to the income classes between \$5,000 and \$50,000. Consequently, it is fair to assume that it will be in these same income tax brackets that the largest ratio of losses will be taken and in which the highest percentage of decline in actual tax payments this year from those of 1930 or 1929, will occur.

See No Law Change

In spite of the fact that the United States government will be a heavy loser this year from the operation of the capital gains and loss feature of the income tax, those who have been sounding members of congress with respect to a change in the law at the next session have been disappointed in their conferences. The argument is that, although the treasury will suffer this year in an amount estimated at between \$10,000,000 to \$20,000,000 from that feature of the law which permits taxpayers to deduct losses, the government has gained by a substantial amount in the years since the law

## DANDRUFF GOES

--ITCHING ENDS

When Zemo Touches the Scalp Douse cooling, healing, cleansing ZEMO on the scalp and rub vigorously. If you're like thousands of others the way dandruff vanishes and itching stops will be a surprise and delight. Use this remarkable, clean, family antiseptic liquid freely. It's the sensible way to get rid of Dandruff and Itching Scalp. Keep ZEMO handy. Safe and dependable for all forms of itching irritations of the skin and scalp. 35c, 50c and \$1.00. Adv.

"THE STORE OF TRUE VALUES"

## PROGRESSIVES TURN EYES ON NATIONAL CAMPAIGNS IN 1932

Deny Third Party Planned—but Norris Comes Out for Conference

Washington — (CP)—Progressives extended their thoughts today to the 1932 presidential race although they disclaimed any intent of organizing a third party.

As the two-day meeting here entered its last sessions, conference consider a proposal by Senator Norris, Republican, Nebraska, their chairman, for establishment of a "conference of political independence."

In arranging committees to carry work through the next congress, the Nebraskan directed attention to a definite legislative program covering tariff, unemployment, power, agriculture and representative government.

The committees were named only to outline legislative work during the summer and fall, but they were expected to continue their efforts indefinitely, even into the 1932 elections.

Calling for new national policies, conference speakers have centered attacks on the Hoover administration although the platform of Chairman Raskob of the Democratic national committee drew fire from Senator Borah, Republican of Idaho.

Norris himself focused attention on the next presidential race with expression of fear that the "power trust" was aiming at control of both national conventions and both presidential candidates.

In this connection, Governor Roosevelt, Democrat, New York, sent a message to the convention urging study of his own water power policies. Roosevelt was invited to the meeting and friendly relations seem to have been established.

Brief Dry Law Mention

Prohibition crept into the discussions last night just for a moment when Charles A. Beard, historical writer, in reply to questions put to the conference by Senator Watson

of Indiana, the Republican leader, said Progressive opinion was opposed to blanket repeal of the eighteenth amendment without the provision of some form of public control of liquor.

Leaders, however, centered discussion on economic issues on the agenda and Beard's statement created no counter discussion.

The first day's meeting drew a round of suggestions. Senator Cutting, Republican, New Mexico, advocated abolition of the electoral college in the election of presidents; deplored excessive campaign expenditures and urged strengthening of the corrupt practices act to curb those.

Conferences of Progressive leaders in congress were proposed by Representative LaGuardia, Republican, New York, in a letter from his sick bed. He also urged unemployment insurance, study of interest rates, and a national system of unemployment service.

The export debenture principle of farm relief was advocated by Senator Borah, Senator Costigan, Democrat, Colorado, proposed revision of the tariff structure with some rate reductions.

SCHOOL BANKING IS DOWN ANOTHER POINT

School banking dropped another point last week when only 80 per cent of the pupils banked. A total of \$631.33 was deposited, bringing the balance on deposit up to \$10,783.75. Interest of \$31.91 was credited and 32 withdrawals reduced the balance by \$331.65.

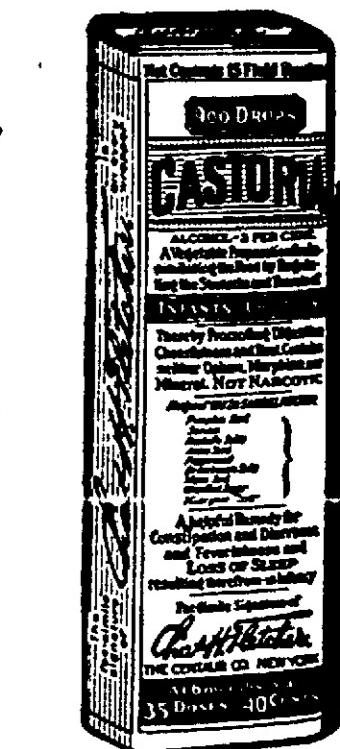

McKinley and Orthopedic schools banked 100 per cent.

The amount deposited at the various schools were: McKinley, \$3,103.33; Orthopedic, \$1, \$3.07; Colum-

bus, \$43, \$44.04; Richmond, \$5, \$5.82; Roosevelt, 407, \$96.50; Lincoln, 112, \$27.66; First Ward, 336, \$64.41; Jefferson, 267, \$41.93; Wilson, 210,

\$28.96; Franklin, 237, \$29.12; Fourth ward, 156, \$23.44; Washington, 357, \$44.11; Opportunity room, 12, \$1.00; and 1st school, \$151.52.

# High School Cagers End 1931 Season At Marinette Tomorrow

**VICTORY WILL  
GIVE ORANGE  
LEAGUE TITLE**

**Defeat Will Throw Team  
into a Tie With Oshkosh  
for Championship**

**FOX RIVER VALLEY LEAGUE**

Appleton	8	1	889
Oshkosh	8	2	890
Fond du Lac	6	4	860
East Green Bay	4	4	601
Marinette	2	6	230
West Green Bay	3	6	333
Manitowoc	3	6	333
Sheboygan	3	7	322

**FINAL GAMES**

Appleton at Marinette.

West at East.

Manitowoc at Sheboygan.

**O** NE game of basketball, 32 minutes of play separate Appleton high school cagers from the goal of Orange quintlets ever since the day that Art Denney coached a championship squad back in the first year the Fox River conference was organized.

Several times the Orange quintlets, especially in recent years, have stepped out with what looked like a championship team. Then came illness at a crucial part of the season, or someone flunked out, or the unexpected happened and some pesky team like East Green Bay came along to beat the squad a couple times and with the trimmings went hopes for the title.

So it is not unusual that Coach Joseph Shields and his squad are a bit skeptical as they finish preparations for the Marinette game Friday night at Marinette, a game they have worked hard for so that about 9:30 Friday evening they can telephone back home they've won the title.

Marinette should not be a hard team to beat but that counts for nothing. Like the Orange, the northern teams end its season Friday night and it probably would like nothing better than to beat the league leaders just for the fun of it. Coach Shields has drilled that into the minds of his youngsters all week and it was the last word he passed to them tonight when the season's last workout was held in the high school gym.

Other league games tomorrow night will find East and West Green Bay performing in the East gymnasium and Manitowoc down at Sheboygan, Oshkosh and Fond du Lac closed their season last week when the Sawdust City team beat the Cardinals at Oshkosh, and clinched second place. Defeat for Appleton tomorrow will throw the Orange and Oshkosh into a tie for the title.

## Training Camp Notes

**P**ENSACOLA, Fla.—(AP)—Francis Raymond Connolly, son of Tommy, dean of American league umpires, has arrived in the Red Sox camp to umpire today's exhibition game with the Spring Hill college nine from Mobile, Ala. Young Connolly started umpiring while he was still a student at Little Rock college. He has officiated at school games, shop league games of the Missouri Pacific and in a professional way with the Piedmont league. Francis hails from Natick, Mass.

**S**T. PETERSBURG, Fla.—(AP)—The Braves had one big aching head today—the aftermath of yesterday's rout. Freddy Maguire, who hit Lou Gehrig while attempting to complete a double play during yesterday's game, was slated to do a little resting. Manager McKechnie said that Freddy looked tired and evidently hadn't fully recovered from his jumbo attack.

**S**ACRAMENTO, Calif.—(AP)—Members of the Detroit Tiger baseball team are strong for Jack Dempsey. The former heavyweight champion offered a fight here recently and saw that all the Tigers had tickets. Now the players have learned that Jack paid for them.

**S**T. PETERSBURG, Fla.—(AP)—Joe Sewell, veteran third baseman who attached himself to the New York Yankees after being let out by Cleveland, is rapidly becoming a threat to the peace of mind of the other Yankees' infielders.

In two exhibition games he has played so far, Sewell has had eight official times at bat and has hit safely five times, in addition to fielding his position well.

He claims his legs are as spry as they were five years ago and it was only his attempting to play and travel while suffering with influenza last year that gave him a bad season.

**F**ORT MYERS, Fla.—(AP)—Manager Connie Mack concedes that Hank MacDonald, giant recruit pitcher from the west coast, has a chance to make the athletics.

"Hank is a good boy," Mack observed, "and I think he has a chance. He was in good shape when he reported two weeks ago and I think he will make a pitcher. But there is no way to tell now what he can do after the season gets under way."

**S**AN ANTONIO, Tex.—(AP)—The White Sox today had only one holdout on their list and his absence was causing Manager Donie Bush no worry.

Bush yesterday became certain of having his full strength ready for the opening of the annual series with the New York Giants, when Carl Reynolds came to terms with the club. Moe Berg, catcher, is the only one now out of the fold. Reynolds has been training with the Uni-

## Chaff 'n ChatteR

By Gordon E. McIntyre

**T**AKE athletic situation and recent announcements regarding the future of athletics at Carroll college have caused no little comment and various opinions in state newspapers.

Resignation of Coach R. C. Kenney was a surprise in some circles but the announcement the following day that Vic Batha would take the athletic directorship as the first step in new sports program caused more surprise.

To this writer it seems Carroll has come to the end of the sports program which started when Dr. Gandy returned to the Pioneer Institution several years ago from Centre college and announced that Carroll soon would have athletic teams that would give Big Ten and eastern universities a run for their money.

And the Pioneers did have good teams. They started with an insignificant football squad and soon had one that continually mopped up in state circles and won a flock of championships.

Basketball teams steadily got better until this year the Pioneers have one of their greatest aggregations. But all along there was rumor that gate receipts were not paying the freight at Carroll, that sports were a losing proposition financially.

Now it seems the rumors are so.

Kenney resigns and Batha takes

the helm thus doing away with one paid coach and the whole thing looks as though Carroll is de-emphasizing sports. Perhaps.

Just what the grid situation at Carroll is for next fall we don't know but we wouldn't be a bit surprised to see Norris Armstrong return for some fine sounding reason.

Or perhaps the Pioneers have a squad that won't need an outside coach, one that Batha can watch over and that will coach itself. That's the situation in basketball.

The Pioneer cagers haven't received much coaching for the last two years the boys just going onto the floor and playing the type of game that Hinckley and Vander-Muelken decide they should play.

And the squad wins 95 percent of the games on its schedule, too.

In track Batha will direct. He

has done that for several years with considerable success.

But irrespective of what Carroll claims or what others claim there is a note in the Pioneer situation that is worthy of much consideration—inter-collegiate athletics in Wisconsin and in the mid-west are not paying for themselves even when you have championship football and basketball teams. The fellow who hollers about over-emphasis in sports is all wrong.

They are four schools in the Big Four, the Wisconsin inter-collegiate athletic conference. Three of them admit, they regularly have gone into the red on football—Carroll, Beloit and Lawrence. Ripon is an exception because Carl Doehling has found that by playing Big Ten schools in early season games he can get enough money to pay the freight for the remainder of his grid season. And as long as he has the men and material Doehling should be given credit.

That brings the question What is happening to football in the smaller school?

First of all we're inclined to blame the radio. Take any Saturday noon in Appleton and canvas your sport fans as they grab lunch in a downtown restaurant or dash for home. They're going to find a radio and a nice easy chair and listen to the Notre Dame game, some Big Ten contest or something like that. Lawrence playing at home? Who cares!

And again in the season when the days are fairly warm the grid fans hop into a car and drive to Madison or Chicago where they see a great show and a football game and have a big time. They'll causally ask the score of the Lawrence game when they arrive back home Sunday night or maybe Monday morning.

## IOWA LAWMAKERS GO BACK HOME ASSURED HAWKS ARE ALL RIGHT

Complete Quizzing Major Griffith Over Big Ten Ouster in 1929

Chicago—(AP)—Enriched by approximately 30,000 words of testimony and assured that University of Iowa athletics are being conducted in a manner approved by the Western conference, the Iowa legislative investigating committee had returned to Des Moines today.

The committee which is probing the administrative affairs of the state university spent two days in Chicago quizzing Major John L. Griffith and Amos Alonzo Stagg, Sr., athletic director of the University of Chicago, on the reasons why Iowa was suspended from athletic relationship with other Big Ten schools in May, 1929.

The committee learned, at some length that Iowa was adjudged guilty of having recruited and subsidized athletes, had countenanced a loan fund for athletes and had permitted alumni interference in the management of its athletic affairs.

It also learned that the so-called "betting-fund," was not known to have existed when Iowa was ousted, and that the former director of athletics, Dr. Paul Belting was not responsible for Iowa's athletic troubles. Major Griffith assured the members of the committee that the Big Ten has confidence in the ability of President Walter Jessup and Athletic Director D. H. Lauer, to properly handle the school's athletics.

Major Griffith also stated that Iowa would not have been readmitted to good standing in February 1930, if a number of athletes, who benefited by the Belting fund, had not been declared ineligible for competition.

**ANDERSON, FALCONER TO LEAD RIPPON TEAMS**

Ripon—(AP)—Ripon college football and basketball players elected Rum Anderson, Minneapolis, and Kenny Falconer, Chicago, as their respective captains at the annual athletic banquet given by the city's service clubs yesterday.

Anderson was named fullback on the all-Midwest conference team selections of many writers last fall. Falconer starred at forward on the basketball team.

Twenty members of the 1930 football squad and eight cage men were awarded letters.

**COLUMBIA WON'T PLAY FOR CAGE CHAMPIONSHIP**

Seattle—(AP)—Earl Campbell, University of Washington graduate manager, has announced receipt of a telegram from Columbia university officials saying that institution had refused consent for a basketball series in Chicago between the two institutions for the national title. Washington won the Pacific coast conference championship.

## STICKERS

37x ???

It is possible to multiply 37 by nine different numbers so that the nine different answers are each of three digits and in none of the answers will two different digits appear. Can you find the nine numbers?

(The correct answer will be print ed in tomorrow's paper.)

### Yesterday's Stickler Solved

ESCAPE
STOVES
COVERT
AVENUE
PERUSE
ESTEEM

This is the completed word square, in which the words read the same from left to right as from top to bottom.

### Sports Question Box

Question—Who would be charged with the loss of a game, the relief pitcher, or the first pitcher, if the first pitcher put the winning run on the base, but the score was even when the relief pitcher went in? At that time the bases were full and there were no outs.

Answer—If the first pitcher put the winning run on the bases and the team is defeated, he is charged with the loss.

Question—When was Jim Jeffries born? Was he a Californian? How old was he when he won the heavyweight title?

Answer—April 15, 1875. No. Jeffries was born in Carroll, Ohio, 23 years old.

Question—Did Howard Jones, the Southern California coach ever coach at Yale?

Answer—Yes, for a season or two before he went to Iowa.

Question—Where was the National three cushion billiard championship this year?

Answer—In the New York Elks Club on West 43rd Street.

Question—Whom do you consider the three best featherweights of all time?

Answer—Terry McGovern, George Dixon and Abe Attell.

Question—A runner going a hundred yards in ten seconds—how many feet does he cover a second?

Answer—Thirty feet.

from the Yard quintet last night and moved closer to the top in league standings. H. Richmond rolled a 223 to give the Machines their first win and J. McKeefry hit 212 for the second victory. C. Wassenberg had a 193 to help the Yards cop the third and last game.

Office bowlers won the straight from the weakened Construction crew despite the fact M. Ashauer of the losers had a 192, 160 and 219 for his efforts. His series score was 571.

Electrician bowlers won the first game of their series with the Digesters when C. Sternage rolled a 221 and Schultz a 193. The team then slipped and with the Digesters having a 104 pin advantage because of handicaps lost the last two games.

Reimers rolled 183 in the first two games for the Janitors and the scores accounted for the team's two win over the guards. Evans' 197 in the final game was the big score that helped the Guards to win the contest.

shore

of the lake nor along the east shore to north of Charlevoix. At the straits, the ice averages 17 inches in thickness, heavily wind-rowed and increasing in depth, although ice fields are mostly gone from around Beaver Island.

Lake Huron, at Mackinac Island is 8 inches of ice. Cheboygan reported the harbor open. The west shore is free of field ice from Presque Isle to within ten miles of Port Huron, whence ice fields extend to the mouth of the St. Clair river. The eastern shore is free of field ice. Ice from 10 to 12 inches thick is in Saginaw bay, forced in by the wind.

The St. Clair river is open to near St. Clair, then is closed to the flats, with blockade near Roberts landing. The Detroit river is open.

Varying conditions are reported for Lake Erie, with the west end actually open, except for ice around the islands, but the east end rather generally closed, with field ice. Cleveland has some slush ice in the harbor, as has Sundusky. The ice in the east portion of Lake Erie is soft and honeycombed, averaging about 4 inches in thickness.

## 150 BOOK PLATES ON DISPLAY HERE

**Chicago Collection Included in Art Exhibits at Lawrence College**

An exhibit of 150 book plates from the personal collection of Bertha E. Jacques, Chicago artist, is included in the March art display in the art alcoves of the Lawrence college library. The works of artists from all over the world are represented in the collection. Escutcheons depicting the heraldry of many families of Canada and England are shown on some of the bookplates. One done by W. W. Alexander shows the book title to be that of Sir Joseph Wesley Flavelle, a Toronto baronet, and another is that of Sir John Craig Eaton of England.

While intricate design and decoration embellish the bookplates showing escutcheons, some plates are extremely simple. One in point shows a thumb print, designed

"By Mark" by the owner of the book whose name is the only other work on the plate.

Many of the plates are done in color, showing portraits of the author or subject of which the books in the library treat, such as Darwin, Dickens and others. Every process is represented. Linoleum cuts, wood blocks, etchings and engravings are used in a multitude of designs to make each plate individual and distinctive. Book plates of the college and Paper Chemistry Institute are also on display in the library as a supplement to the collection.

**SURPRISE!**  
"Any surprises amongst your birthday presents?"

"Yes, Smith gave me a book that I lent to Jones six months ago." —Der Lustige, Kachse, Leipzig.

# CHORUS SINGS LAST OF SERIES OF 8 PROGRAMS

Vocalists and Orchestra  
Present Concert in Con-  
gregational Church

*Special to Post-Crescent*

New London.—What will probably be the last of the series of eight community programs given by a large variety of talent at the Congregational church during the past two months will take place at the church on Sunday evening. This will be a program given by a choral society representing the entire city. Mrs. C. E. Reuter has directed the group through the weeks of rehearsals and will be in charge of the program.

The voices will be accompanied by an orchestra. E. L. Reuter will be pianist and Mrs. Carl Fellens will play the pipe organ.

The program:

Southern Melodies .....

Orchestra .....

Chorus .....

Mornin, Noon and Night in Vienna .....

Orchestra .....

Soldiers' Chorus (from Faust) .....

Gounod .....

Auf Wiedersehen .....

Romberg .....

Chorus .....

Rhapsode Hongroise .....

Liszt Invitation to the Dance .....

Webber .....

Mrs. Freeman—Mrs. Earl Felling

Massa Deas (from "New World Sym-  
phony Duor").

Sweet Genevieve .....

Lucker .....

Double Male Quartet

Pilgrims Chorus (Tannhauser) .....

Wagner .....

Chorus .....

Triumphal March (from Aida) Verde

Orchestra .....

The chorus includes the follow-  
ing persons:

Soprano—Mrs. Merle Heinrich,

Mrs. Emil Gehrk, Mrs. John Dick-  
inson, Mrs. M. Ulrich, Mrs. A. H.

Kolen, Mrs. R. J. McNaughan, Mrs.

F. E. Palden, Mrs. James Graham,

Mrs. Rudd Smith, Miss Evelyn Baldwin,

Miss Quella Baldwin, Miss Ann Halsor, Miss Vera Hofman, Miss

Jane Seymour, Miss Grace Jackson,

Miss Rose Gorowitz, Miss Marjorie Zang, Miss Lorraine Wiedenbeck,

Altos—Mrs. G. A. Vanderveldt, Mrs.

F. J. Pfeifer, Mrs. A. L. Severance,

Mrs. E. C. Jost, Miss Irma Reuter,

Miss Hazel Bleck.

Tenors—A. A. Vorda, Ben An-  
drews, A. Brusen, G. A. Wells,

Bassos—A. Engen, Emil Gehrk,

F. E. Palden, C. B. Reuter.

**FORMER RESIDENT OF  
NORTHPORT DIES AT IOLA**

*(Special to Post-Crescent)*

New London.—Mrs. Walter Jones, 47, Iola, died Tuesday afternoon at Iola. She underwent an operation several weeks ago and had apparently recovered when a second operation was necessary. She was formerly Miss Lyla Tyler of Northport. Survivors are the widower; her mother, Mrs. Florence Tyler; New London; one sister, Mrs. Clifford Dean, New London; and one brother, Hugh Tyler, Waukesha. The funeral will be held at 1:30 Saturday afternoon from the Methodist church at Iola with burial in Floral Hill cemetery, New London. Among those who will attend the funeral from New London are Mr. and Mrs. Clifford Dean, Mrs. Florence Tyler, and Mr. and Mrs. H. E. Freiburger.

**LEGION CHAMPS WIN  
INDOOR BALL GAMES**

*Special to Post-Crescent*

New London.—The Poolshakers lost an indoor basketball game Wednesday night to the Legion team, 12-6. The losers were minus the services of Westphal, Bessett, who pitched, was knocked all over the hall. Bunk ran his strikeouts up into the twenties and never was in any danger.

In the second game of the evening Huntley's pitching with some double plays enabled Helm's Champions to give Borden a merry ride by an 11-3 score. Borden played an erratic game.

**NEW LONDON SOCIETY**

*Special to Post-Crescent*

New London.—The Owego club met Wednesday afternoon at the home of Mrs. Oliver Brooks. Prizes at cards were won by Mrs. Charles Milby, Mrs. Fred Weidenbeck and Mrs. C. J. Prahl. Mrs. Jack Jeffers will be the next hostess when the club meets next Wednesday.

The Catholic Women's Study club of New London will meet Thursday night at Knights of Columbus hall. The general program will be on Spanish Art. Papers will be read by Mrs. Robert Fitzgerald, Sr., Mrs. Frank Murphy and Mrs. W. J. Butler. There will be special music.

**BERT TATE RITES  
SET FOR FRIDAY**

*Special to Post-Crescent*

New London.—Bert Tate, 67, was found dead in his room at the home of his son, Manuel Shawano, Tuesday. Apparently in good health, he had gone down town in the morning and on his return had retired to his room. When the family went to call him to dinner they found him dead. It is thought that death was caused by a blood clot.

He was born March 2, 1862, in Fond du Lac, and moved to Maple Creek at the age of 9 years. He was married to Miss Adela Sanicus, Maple Creek, who died about a year ago. Survivors are one daughter, Lulu, Oshkosh; three sons, Manuel and Chester, Shawano; and toy, Gladstone, Mich.; one sister, Mrs. A. M. Hutchinson, New London; four brothers, Amos, New London; Frank, Fond du Lac; William, Bear Creek; and Arthur, Shawano. The funeral will be held Friday afternoon at Shawano with

## BAND ACCOMPANIES BASKETBALL TEAM TO DISTRICT MEET

## PICK CONTEST WINNERS FOR LEAGUE MEET

Betty Rae Locke and Ruth Zuehlke to Represent  
Shiocton School

*(Special to Post-Crescent)*

Shiocton.—In the extemporaneous reading contest held at the high school Monday morning, Betty Rae Locke was awarded first place, Ruth Zuehlke second and Pearl Vanderhoof, third. The judges included Monroe Manley, W. D. Brownson and the Misses Rose Hay and Marjorie Johnson, members of the high school faculty and Miss Catherine Haude, principal of the Shiocton graded school.

Those receiving first and second places will represent the local high school in the league contest in April.

At the regular meeting of the Royal Neighbor Lodge Tuesday evening Mrs. Elsa Kuether was elected recorder to fill the vacancy of Mrs. Agnes Lyons who resigned because of ill health.

Mrs. Celia Oaks was elected manager, which office Mrs. Kuether had held. After the business meeting the evening was spent socially. The entertainment committee included Mrs. Eva Cense, chairman, Mrs. Eva Booth and Mrs. Minneola Hobgood.

A surprise party was given for Wayne and George Kennedy Saturday evening at their home by a number of friends. Games and stunts furnished the evening's entertainment.

Guests were Roselee Arts, Bernice Becker, Zella Cousins, Kathryn Diermeler, Beatrice Eurdmen, Florence Herman, Irene Klicka, Dorothy Olson, Lorena Puls, Celia Puls, Le Verne Puls, Theresa Puls, Marion Surry, Ervin Arts, Michael Diermeler, Leo Diermeler, Clarence Heller, Leslie Holser, Kermit Herman, Harold Kennedy, Russell Laird, Irvin Mettke, Clifford Miller, Donald Olson, Leeland Peep, Leo Puls, Eldie Seehauer, and Allen Turriff.

Mr. F. J. Pfeifer was named as a director to take the place of E. J. Tillison, Clintonville, who resigned since the completion of the Clintonville course. The remainder of the board of directors, including William Stofer, George Ruppel, M. C. Tracy and E. C. Jost, was reelected. These men have served since its organization.

The course at the present time is in excellent condition and play will begin there in a short time, if the weather continues. The permanent green, were seeded last year with an excellent variety of bent grass, which established itself thoroughly during the season. Dues for members will continue to be \$25 a year.

Walter Olsen of Clintonville, a former member asked that his share be disposed of, since he no longer wished to hold a membership in the local club, and that the amount realized be contributed to some worthy fund.

**MANY HAVE PERFECT  
RECORDS AT SCHOOL**

*Bear Creek—The following pupils at St. Mary school had perfect attendance records during the fourth period:*

First grade—John Mares and Raymond Moravec.

Second grade—Ralph Hurley, Ralph Norder, Virginia Dempsey, John Moravec, Rita Lorge, Mae Smith.

Third grade—William Rebman, Julian Mallet, Victor Babino and Melvin Spence.

Fourth grade—Jerome Balthazor, Robert Norder, Josephine Balthazor, Alice Sullivan, Gordon Alberts, Earl Lorge, Elvin Norder and Rita Norder.

Fifth grade—Edward Flanagan, William McDonald, Anita Flanagan, Violet McClure, Monica Thomas, Milton Norder, Roger Rebman, Helen Lorge, Helen Pelly and Helen Young.

Sixth grade—Leo Bash, Francis Jarvis, Leland Tyrell, Florence Lorge, Dorothy Pyle, Charles Gough, Gordon Mallet, Loraine Monty, Dorothy Orr and Margaret Smith.

Seventh grade—Martin Dempsey, Edward Flannery, Esther Flanagan, Reynold Monty, Gladys Bricco and Lorretta Lorge.

Eighth grade—Lucille Fenton, Grace Mallet and Ceci Smith.

Mr. and Mrs. C. G. Ballhorn and their guest, Miss Fern Roepke of Oshkosh, were guests at a 6 o'clock dinner at the W. Rosnow, Jr., home at Clintonville Saturday.

A number of friends surprised Mrs. Louise Tyrrell, son of Mr. and Mrs. Louis Tyrrell, on his eleventh birthday Sunday. Those who attended were Douglas Dempsey, Kenneth Klemm, Jean Long, Nitza Klemm and Lula Klemm.

Mrs. F. J. Vedder has returned to her home. She submitted to a major operation at an Oshkosh hospital. She also spent some time with friends at Waupaca.

**FETE DALE RESIDENT  
AT SURPRISE PARTY**

Medina—Mr. and Mrs. Mike Leselyong and Mr. and Mrs. Ed. Krock of this village were among the guests who surprised Wesley Prentiss of Dale in honor of his birthday on Wednesday evening. Other guests were: Mr. and Mrs. Ardie Van Alstine, Mr. and Mrs. Myron Voight of Appleton, Mr. and Mrs. Chris Fahley of Hortonville and Mr. and Mrs. Ransom Griswold and Mr. and Mrs. Milford Bottrell of Dale.

Cards provided entertainment and the following won prizes: Mrs. Chris Fahley, Mrs. Ed Krock, Myron Voight and to Mr. and Mrs. Ardie Van Alstine.

The Cedar Grove Home economics group met at the home of Mrs. H. M. Culbertson Wednesday. Sieve fittings were demonstrated.

Those who attended were: Mrs. Elnor Gust, Mrs. Ed Krock, Mrs. Myron Voight and to Mrs. and Mrs. Wesley Prentiss.

The following people from this vicinity attended a party at the home of Mr. and Mrs. Myron Voight at Appleton Sunday evening: Mr. and Mrs. Chris Fahley of Hortonville, Mr. and Mrs. Milford Bottrell of Dale, Mr. and Mrs. Ransom Griswold of Dale, Mr. and Mrs. Wesley Prentiss of Dale, Mr. and Mrs. Lester Boman, Mr. and Mrs. Edward Strong, Cards furnished the evening's entertainment. Those present were Mr. and Mrs. Lester Boman, Mr. and Mrs. Edward Strong, Mr. and Mrs. A. Carpenter, Mrs. Elnor Gust and her family, Mr. and Mrs. Henry Hazen and family, Mr. and Mrs. Joel Poule, Vernie Cummings, Mr. and Mrs. B. F. Gunderson.

**OBSERVE BIRTHDAY AT  
DEWEY STRONG HOME**

*Special to Post-Crescent*

Leeman—A number of friends and neighbors gathered at the Dewey Strong home Sunday evening to celebrate the birthday anniversary of Mrs. Strong. Cards furnished the evening's entertainment. Those present were Mr. and Mrs. Lester Boman, Mr. and Mrs. Edward Strong, Mr. and Mrs. A. Carpenter, Mrs. Elnor Gust and her family, Mr. and Mrs. Henry Hazen and family, Mr. and Mrs. Joel Poule, Vernie Cummings, Mr. and Mrs. B. F. Gunderson.

**AGED RESIDENT OF  
BEAR CREEK DIES**

*(Special to Post-Crescent)*

Bear Creek—Fred Parson, 63, died about 8:15 Wednesday afternoon at the home of his daughter, Mrs. Arthur Johnson, town of Bear Creek, following an illness of about two months. He was born in Germany and came to America with his parents when he was five years old. Before his marriage in 1882 he lived in Neenah and in the town of Larabee. After his marriage he worked on a railroad for eight years, and then moved to a farm in the town of Matteson, where he lived until about a year ago when he took up his present residence. Survivors include the widow, one son, Edwin, of Bowery, and a daughter, Mrs. Johnson, three sisters, Mrs. Albert Brookhus, Clintonville, Mrs. Herman Reetz, town of Larabee, and Mrs. James Chees, Milwaukee; nine grandchildren and one great-grandchild. Funeral services will be held every Wednesday 7:30 in the evening at Black Creek.

W.—started this week on the tearing down of the old K. of C. building which was recently purchased by Censlow and Peters of Marion. A modern filling station will be erected on the site in the near future.

Mr. and Mrs. Raymond Abrahamson returned Monday from Milwaukee where the former attended a national convention of Chevrolet dealers, which was held at the Milwaukee auditorium Friday. Harry Kress of this city also attended the convention.

The following committee from the St. Martin Lutheran church drove to Milwaukee Tuesday to purchase equipment for the newly arranged kitchen in the church basement G. A. Jesse, H. M. Jesse, Mesdames Carl Euelow, Arthur Krueger, William H. Meizer, Frank Beer, William Nelson, H. M. Jesse, and William Bell. Preparations are under way for the church dedication which will take place Sunday, March 22.

The Rev. W. C. Kurth spoke on "Missionary Imperative" at the regular meeting of the Methodist Foreign Missionary society at the church parlor Tuesday afternoon. Devotions also were led by Mrs. W. C. Kurtz. A short program was given which consisted of musical numbers by the Rev. and Mrs. Kurtz and reading by Mrs. S. J. Churchill. A luncheon followed, and was served by Mrs. D. J. Rohrer and Mrs. W. A. Olén.

Eighteen young people of the Methodist Sunday school classes of Mr. and Mrs. T. C. Dix met at the J. Melchard home Tuesday evening. The monthly business meeting was held and was followed by contests in which prizes were won by Inez McBride and Robert Donley.

Mr. and Mrs. Arthur Peotter have purchased the former James Mallik residence on Powerst and expect to move into their new home within the next few weeks.

Mrs. Otto Schidler was taken to the hospital at Madison Tuesday where she will undergo treatments during the next few weeks.

The S. O. E. club will meet Friday afternoon at the Masonic Hall with Mrs. Earl Siebert and Mrs. A. W. Giersbach as the hostesses.

Mrs. Walter Schroeder was hostess to members of the Economy club at her home Wednesday afternoon.

Mr. and Mrs. Matt Dahl, Jr., entertained at dinner Sunday evening. Their guests included Miss Esther Kersten, Miss Theresa Vega, Mr. and Mrs. Matt Dahl Sr., daughters Euella and Else, sons George, Joseph and Arthur.

A group of friends surprised Mrs. E. Larson at her home Tuesday afternoon in honor of her birthday anniversary. Bridge was played at two tables, and a luncheon was served. Prizes were awarded to Mrs. Elmer Lang and Mrs. Guy Billings.

Mr. and Mrs. John Engels entertained friends at their home Tuesdays evening. Three tables of five hundred were played and a lunch followed. Out of town guests were Mr. and Mrs. Carl Peik at St. Elizabeth hospital in Appleton.

A daughter was born to Mr. and Mrs. Carl Peik at St. Elizabeth hospital in Appleton.

Mrs. Elizabeth Minahan received word on Wednesday of the death of her son Edmund Minahan, 65, which occurred at Rhinelander early Wednesday morning. He was born in the town of New Holstein but came to Chilton in 1875 with his family, who located on a farm in Chilton town.

In 1902 he was graduated from the law school of the University of Wisconsin and located in Rhinelander. Survivors are the mother, three brothers, Dr. P. R. Minahan in Green Bay, James, Arizona, and John in Stockbridge; four sisters, Mrs. Margaret Gilson of Chilton.

Sixth grade—Leo Bash, Francis Jarvis, Leland Tyrell, Florence Lorge, Dorothy Pyle, Charles Gough, Gordon Mallet, Loraine Monty, Dorothy Orr and Margaret Smith.

Seventh grade—Martin Dempsey, Edward Flannery, Esther Flanagan, Reynold Monty, Gladys Bricco and Lorretta Lorge.

</div

## COACH PLANS GRID PRACTICE DURING SPRING

Fundamentals and New Plays to Be Stressed by Little

Kaukauna—Plans are being made by Coach Paul E. Little for spring football practice for his high school squad as soon as weather permits. He expects to get in several weeks of practice. The high school team captured the Northeastern Wisconsin Interscholastic conference championship last fall.

This is the first time in a number of years that spring football practice will be in order. Although no hard scrimmages will be conducted, many new plays will be given to the squad.

Several Kaukauna lodges will be asked to donate trophies to be awarded the three players scoring the highest number of points during spring practice. Points will be awarded for running, blocking and tackling. At the end of the practice points will be totaled, giving every player on the squad a chance to compete for the trophies.

Most of the players of last year's championship team will be included in the lineups next fall. Muel, Vils, Kuchermeister, McCormick, Schwinderman, Nole, Koch, VanLieshout, Schuler and Jansen will be available.

No football captain will be selected by the lettermen. A captain will be selected before each game and at the end of the season an honorary captain will be named by the team.

### Social Items

Kaukauna—A meeting of the ladies of the Legion auxiliary will be held at 8 o'clock Monday evening in Legion hall on Oak-st.

Catholic Order of Foresters, St. Mary's court, No. 118, met Wednesday evening in the annex.

Women's Missionary society of Emmanuel Reformed church will meet at the home of Mrs. J. J. Bass on Sixth-st Thursday evening.

Women's Foreign Missionary society of Brokaw Memorial Methodist Episcopal church met Wednesday afternoon at Epworth Home. A thank offering program was conducted.

### GUN CLUB PLANS TO IMPROVE CLUBHOUSE

Kaukauna—Improvements on the clubhouse of the Kaukauna Gun club will soon be made by the building committee in preparation for the approaching trapshooting season. The clubhouse will be resurfaced and the interior will be equipped with wallboard. The committee in charge of the work is composed of John Coppers, J. Miller, J. Licht, Carl Bartsch and G. Zwick. The first gun shoot will be held on April 19, although several practice shoots probably will be held prior to that date.

### FEW DAYS REMAIN TO FILE INCOME BLANKS

Kaukauna—Only a few days remain in which to file income tax reports with Leo J. Toonen, assessor of incomes, at the courthouse at Appleton. Income tax blanks can be obtained at the office of Louis Wolf, city clerk, in the municipal building. He has been busy for several weeks assisting Kaukauna residents with their reports.

### WORK PROGRESSES ON HIGH SCHOOL ANNUAL

Kaukauna—Work on the high school year book, *Papyrus*, is progressing rapidly, according to Miss Ethelyn Handran, faculty advisor. Indications are that the book will receive an all American rating again this year as the annuals of the last few years have been rated. Books may be issued a week earlier this year if plans under consideration are carried out.

### ARRANGE STORY HOUR FOR SCHOOL CHILDREN

Kaukauna—A story hour will be held at 10:30 Saturday morning in the public library for children of the first six grades in schools. Miss Constance Doremus, student of the library school at Madison, who is doing field work here for a month, will conduct the story hour.

### KAUKAUNA FIVE IN NEENAH CAGE MEET

Kaukauna—with a squad of eight players, Coach Paul E. Little's squad will play in the Neenah district basketball tournament Thursday evening. The local high school meets New London. Players entered in the tournament are Captain Ray Paschen, Koch, Dix, Sager, A. VanDyke, Farwell, Lucette and VanLieshout.

### SCHNEIDER REVIEWS LEGION ACTIVITIES

Kaukauna—Col. Frank J. Schneider, Neenah, past state commander of the American Legion, spoke at the weekly meeting of the Kaukauna Rotary club at Hotel Kaukauna, Wednesday noon. He discussed Legion activities. The meeting was preceded by a luncheon.

The Post-Crescent's representative at Kaukauna is Lloyd Deras. His telephone number is 194-W. Business with The Post-Crescent may be transacted through Mr. Deras.

### Flapper Fanny Says:

A lot of artists can draw anything but a check.

### LAWSONIA MAY BE SOLD, JUDGE SAYS

Creditors May Force Sale of Estate Once Owned by Chicago Publisher

Fond du Lac—(AP)—Lawsonia, the beautiful and spacious private estate developed on Green Lake by the late Victor F. Lawson, owner of the Chicago Daily News, may soon be sold to pay creditors' claims, Judge Roy E. Reed of Ripon, said here Wednesday.

A request for sale of the property has been submitted to the Chicago Title and Trust company, receivers for the H. O. Stone company, owners, by creditors in Green Lake and Fond du Lac whose claims approximate \$25,000.

The estate was acquired in February, 1926, by the Green Lake Beach corporation and the Lawsonia Realty corporation for \$500,000. Promotion of a restricted country club and residence development was undertaken. Addition of airport facilities was projected.

About 1,600 acres of land bordering on Green Lake are now included in the estate, the development of which was started 47 years ago by Mr. Lawson. It was estimated Mr. Lawson spent between \$5,000,000 and \$6,000,000 on the property.

Owners of estates, parceled out by the Lawsonia corporation, members of the Lawsonia Country Club and receivers for the Lawsonia Realty company must approve the sale before any action is taken, Judge Reed said.

Judge Reed denied there was any basis for reports current here that Al Capone, Chicago gangster, had desired to negotiate for the property.

### DAIRYMEN LEARN COMMERCIAL FEEDS ARE TOO EXPENSIVE

Baumgartner Brothers Find Home-grown Feeds Cost Less

BY W. F. WINSEY

Wrightstown—Feeding a herd of 90 cattle on commercial feeds is a somewhat expensive performance that cuts deeply into the profits of dairying. Feeding the same herd on home grown feeds and increasing production is considerably more economical and increases the profits of dairying very materially over the feed-purchasing method. Those are the conclusions reached by Baumgartner Bros., breeders of purebred, registered Guernsey's whose farm is in the outskirts of this village and who have tested out both plans.

Resorting to the raising of legumes in the place of timothy hay and wild grass pastures, to supply the protein feed they were purchasing in the form of bran, oil meal etc., to balance their rations, the brothers have succeeded in curtailing their expenses of dairying far beyond their expectations.

To fairly judge the home feed-production plan of the Baumgartner Bros., one must take into consideration that they are supporting 90 cattle on their 185-acre farm and increasing the production of their cows.

To accomplish their purpose, the brothers are raising alfalfa, soybeans, sweet clover, red clover, oats, barley, wheat and quantities of ripe corn for silage. Through a system of soil fertilization, the brothers have made alfalfa and sweet clover as sure crops as was red clover in this section of the state in pioneer days. The same fertilizers give them big yields of all other crops.

In a hammer mill they grind the ripe soybean stems and leaves and use the meal as one of the ingredients in their balanced grain ration. The other elements are wheat, barley and oats.

Pasture Early

As early as possible in the spring they pasture their cattle in woodlots until the sweet clover is large enough for use. The sweet clover is the best pasture the brothers have ever tried and the best milk-producing pasture.

The brothers inoculate all their legume seed. They double drill with a corn planter the Manchu variety of soybeans at about the same rate as drilled corn is planted, drag the field several times and afterwards cultivate to control weeds.

There is no manure in piles in the fields. They haul the manure from the stables, and spread it on the fields. Early in the fall they start top dressing their alfalfa and sweet clover fields and continue the practice through the winter until the job is completed. This work includes new and old seedlings and the stands that are to be "plowed" under for a corn crop. The snow and the frosts fixes the nitrogen in the manure spread on the fields and saves it for the fertilization of crops. They never give manure a chance to heat and ferment.

**UNABLE TO EAT**

"I suffered such great distress from indigestion that I was unable to eat. I bought *Zinsep* and immediately obtained wonderful relief." — E. R. Hedges, Lincoln City, Neb. End your stomach misery with *ZINSEP*. It's GUARANTEED. At all druggists.

**Zinsep**

### AMNESIA VICTIM'S IDENTITY DISPUTE WATCHED BY ITALY

Florence, Italy—(AP)—Two women followed passionately today the proceedings in Italy's strangest case of questioned identity, involving a decision of the court of appeals as to whether an amnesia victim is Professor Giulio Canella or the trespasser Mario Bruneri.

On the identification depends the marital future of each woman, the parentage of three children and the legitimacy of two. A lower court held the man is Bruneri, accused by police for stealing tombstones from the cemetery where the amnesia victim was found.

Sigona Canella came to Florence before the hearing of her appeal started. She has four children, two born after she identified the man in an asylum at Collegno as her husband, missing since a World war battle in 1918, and took him to her home in Verona. Signora Bruneri arrived at the courtroom today with her only child, Giuseppe.

Opening arguments of lawyers continued today at the second session of the hearing, which may last a week or longer if Canella's attorneys obtain the right to introduce witnesses.

The Professor Canella who was re-

ported missing in the war was a man of means and position, and brother-in-law of the president of the Italian Brazilian Chamber of Commerce.

**RAISE MORE ALFALFA, FARMERS ARE ADVISED**

BY W. F. WINSEY

Wayside—Thirty-five farmers attended the Wednesday forenoon session of the two-day farm institute here. The institute was planned by J. N. Kavanaugh county agent, as one of a weeks series for the farmers of Brown-co.

The conductors Wednesday forenoon were County Agent L. J. Henry, and I. F. Hall, college of agriculture.

Mr. Henry put up strong argument for raising more alfalfa. Farmers can save the money they now are paying for feed, according to Henry. As there are great quantities of home grown alfalfa seed better than any that can be shipped in, this spring is a favorable time for beginners to start raising alfalfa, he pointed out.

ment in piles in the yards or in the fields.

"Farmers can do well in the dairy industry if they raise legumes and through a system of soil fertilization they produce on their farms all the feed they need for their cattle," declared one of the brothers.

The Baumgartner Bros., farmyard in the fields. They haul the manure from the stables, and spread it on the fields. Early in the fall they start top dressing their alfalfa and sweet clover fields and continue the practice through the winter until the job is completed. This work includes new and old seedlings and the stands that are to be "plowed" under for a corn crop. The snow and the frosts fixes the nitrogen in the manure spread on the fields and saves it for the fertilization of crops. They never give manure a chance to heat and ferment.

**FIRSTAID ABSORBENT COTTON, GAUZE AND ADHESIVE PLASTER**

in the modern mills of the United Drug Company and shipped direct to 10,000

Retail Drug Stores, represent the unusual combination of high quality and low price. Now would be as good a time as any for you to stock up with these necessities to be prepared in case of accidents.

### BROWN-CO FARMERS FAVOR SOIL TESTS

Value of Testing Cows Also Outlined to Milk Producers

BY W. F. WINSEY

Denmark—Three hundred farmers and their wives attended the farm institute in the auditorium of the Denmark State bank. Wednesday, and considered economical methods of farming and plans for beautifying lawns and farmyards. The women had a special session in Equity hall where Miss Patterson of the Wisconsin Public Service Corporation demonstrated baking with electrical equipment.

The institute, which was a two-day affair, was conducted by County Agent J. N. Kavanaugh. At the Wednesday session Mr. Kavanaugh was assisted by Thomas Pattison, Durand, a successful farmer and a member of the state staff of institutes conductors, H. G. Morris, of the horticultural department of the College of Agriculture; John Randolph, Fieldman of the Pet Milk Company; and August Speerschneider, New Franken, a winner of the national ton litter contest a few years ago and a renowned breeder of purebred Chester White Swine. The Hummlinger Orchestra furnished the music. In an old time fiddle contest, John Morgan won first prize, Mark Nachteve, second, and John Randag and J. N. Kavanaugh third.

As a result of discussions, Wed-

nesday afternoon a large part of the farmers who are not already doing so will begin testing their soils and cows as the first move in more economic farm production. They will apply lime and phosphate if the

soils show the soils need these fertilizers and begin at once raising alfalfa and making it as sure a crop as useless timothy. They will use commercial fertilizers to get big yields of ripe corn and small grain. They will use purebred swine as foundation animals.

Wilkes-Barre, Pa.—Joseph Sasnowski borrowed \$7 from his wife. The next she saw of him was dead. It developed that he had taken \$5 of the money to buy a revolver. He returned home, locked himself in a room, and shot himself in the head.

One of the many wonderful things about Peterson's Ointment— you don't have to wait long before it accomplishes results.

If you are troubled with pimples on your face and back—just rub on Peterson's Ointment before going to bed—rub it in good—wake up in the morning with your skin already starting to clear.

The mighty healing power of Peterson's rapidly banishes those ugly blemishes and makes you the proud possessor of charming skin beauty.

Mr. Ed. W. King of Pittsburgh, Pa., writes: "I had pimples all over my face for over a year. I had used other Ointments but they did no good. It was not until I tried Peterson's that I found the way to end pimples."

Pimples have disappeared in 24 hrs. when Peterson's Ointment was rubbed well into the skin— one 35 cent box will prove it—all drug stores.

## FRECKLES AND HIS FRIENDS

## BOOTS AND HER BUDDIES

**SYNOPSIS:** The mysterious John Wayne is a problem to Dr. Charters. Because he knows of the physician's criminal career, he forces from Charters an alibi for the murder of "Spider" Schlitz and is admitted to his nursing home. There he meets Marjorie Lauderelle, puzzled by her lingering illness. Her aunt, Mrs. Lauderelle, was formerly a companion of Charters' American days. Perhaps, says the doctor, Wayne knows how he robbed Schlitz and Chink Durson of their shares of the St. Clair diamond "job." Dr. MacAdoo's suggestion to "bump him off" is rejected by Charters, who decides to have Wayne's pretended delusions certified as insanity and remove him. Wayne, encountering MacAdoo, reveals his knowledge of his past life of crime and asks him what he is getting out of the Marjorie Lauderelle business. Started, MacAdoo offers to put his "cards on the table" if Wayne will do the same.

"And then he got six months' imprisonment for going to some impractical for going to some

waye he laughed so that he fell off

his chair. And then one day they brought a street accident into his

surgery and though he was so drunk

that he hardly seemed to know

which was the patient, he performed

what all the doctors said was abso-

lutely the most marvelous opera-

tion that had ever been done.

"And then he got six months'

imprisonment for going to some

waye he brought him here

to Dr. Charters, you know, one of

the first patients when The Monas-

tery was turned into a Nursing

Home... been here ever since."

"Just think of that now," said

Mrs. Platé. "Drink and drugs.

You said vice, my dear!"

"Oh, yes, my dear, terrible. His

lady patients . . . why . . .

The door opened and a patient,

a lame boy, emerged.

"Miss Skinner?" called Dr. Stud-

ley—a clean-shaven, gray-haired,

though young-looking man; the

smile of whose kindly clever face

was a medicine in itself—and Miss

Skinner, springing up, bursted into

the consulting-room.

"Excuse me, Madam," said Mr.

Waye, throwing himself at the feet

of Mrs. Platé and peering beneath

the settee.

"What are you doing, my good

man?" ejaculated Mrs. Platé.

"Looking for my cobra," replied

Mr. Waye. "I put it down and

when I turned round I was just in

time to see it dart in here."

With a look of horror Mrs. Platé fled, as Mr. Waye, rising, observed:

"Perhaps that was it that went

in there just now. It looked very

like a snake to me."

As John Waye left Dr. Studley's

consulting-room, half an hour later, he said:

"Excuse my curiosity, Doctor, but

wasn't that a Miss Skinner who

came in before me?"

"The lady's name is Skinner,"

smiled Dr. Studley.

"Ah, I thought so. Husband a

doctor?"

"No. She is a Miss Skinner," re-

plied Dr. Studley.

"Ah, thank you. My mistake."

In the corridor he met the re-

turning Mrs. Platé.

"He, he," he giggled as that lady

shrank aside. "He, he. It was my

cobra. Name of Skinner," and rais-

ing his hand to his ears he rapidly

coiled and uncoiled his Index fin-

gers beside them.

"Sure, my dear!" interrupted the

narrator, a small insignificant wo-

man with rather untidy hair, dowdy

clothes and a total lack of any kind

of distinction — a woman whom

John Waye watched with great in-

terest.

"Why, my husband's a doctor, and

was at Edinburgh University with

him. He could have climbed to any

height. Absolutely brilliant, but he

drank even then like a fish. He

went his round absolutely drunk, and

when people told him 't'er symp-

athic lards, or of cards.

In his room he would relax and

removing dinner-jacket and collar,

take him ease in his shirt-sleeves.

About eleven he would resume

these uncomfortable insignia and

again go on duty—the duty of see-

ing that the men patients retired to

rest at a reasonable hour, com-

ported themselves with discretion,

and were all present. Thereafter

he would patrol the house as

though it were besieged—or might

be attacked—or burglariously en-

tered. Two or three times, in the

night, he would repeat this tour;

a watch-dog, apparently, that was

always ready for a visit from the

wolf.

"Come in," he called sharply, as

the knocking started him from

dreams of strategems and spoils;

and, the door opening he beheld

John Waye.

(Copyright, 1931, by Frederick A. Stokes Co.)

Waye's quick hand foils the

menacing pistol appearing in the

next chapter, but Mr. James

can't avoid a sudden seizure.

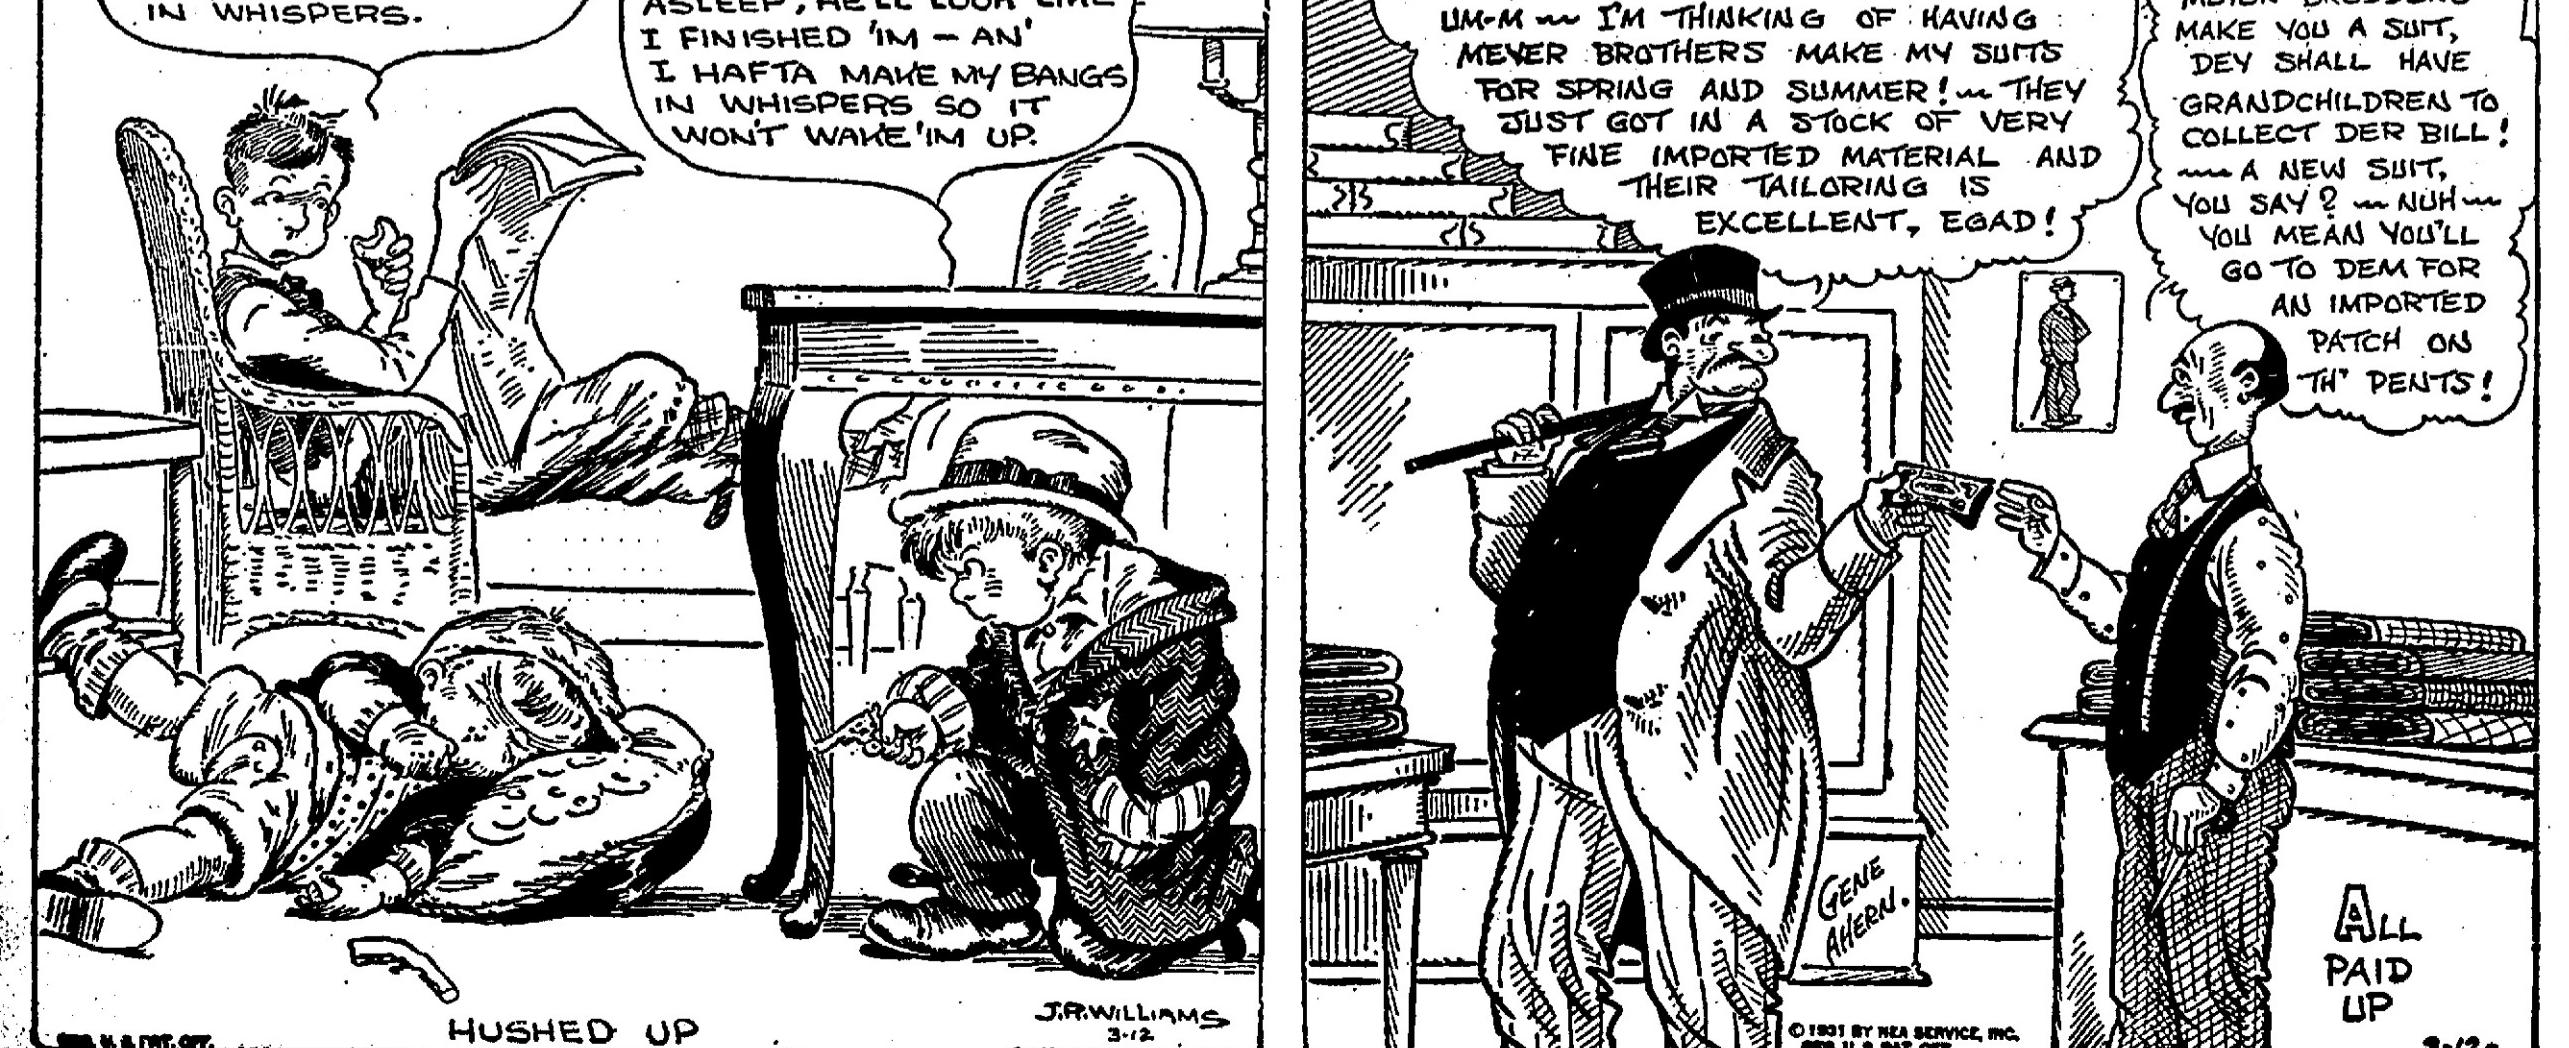

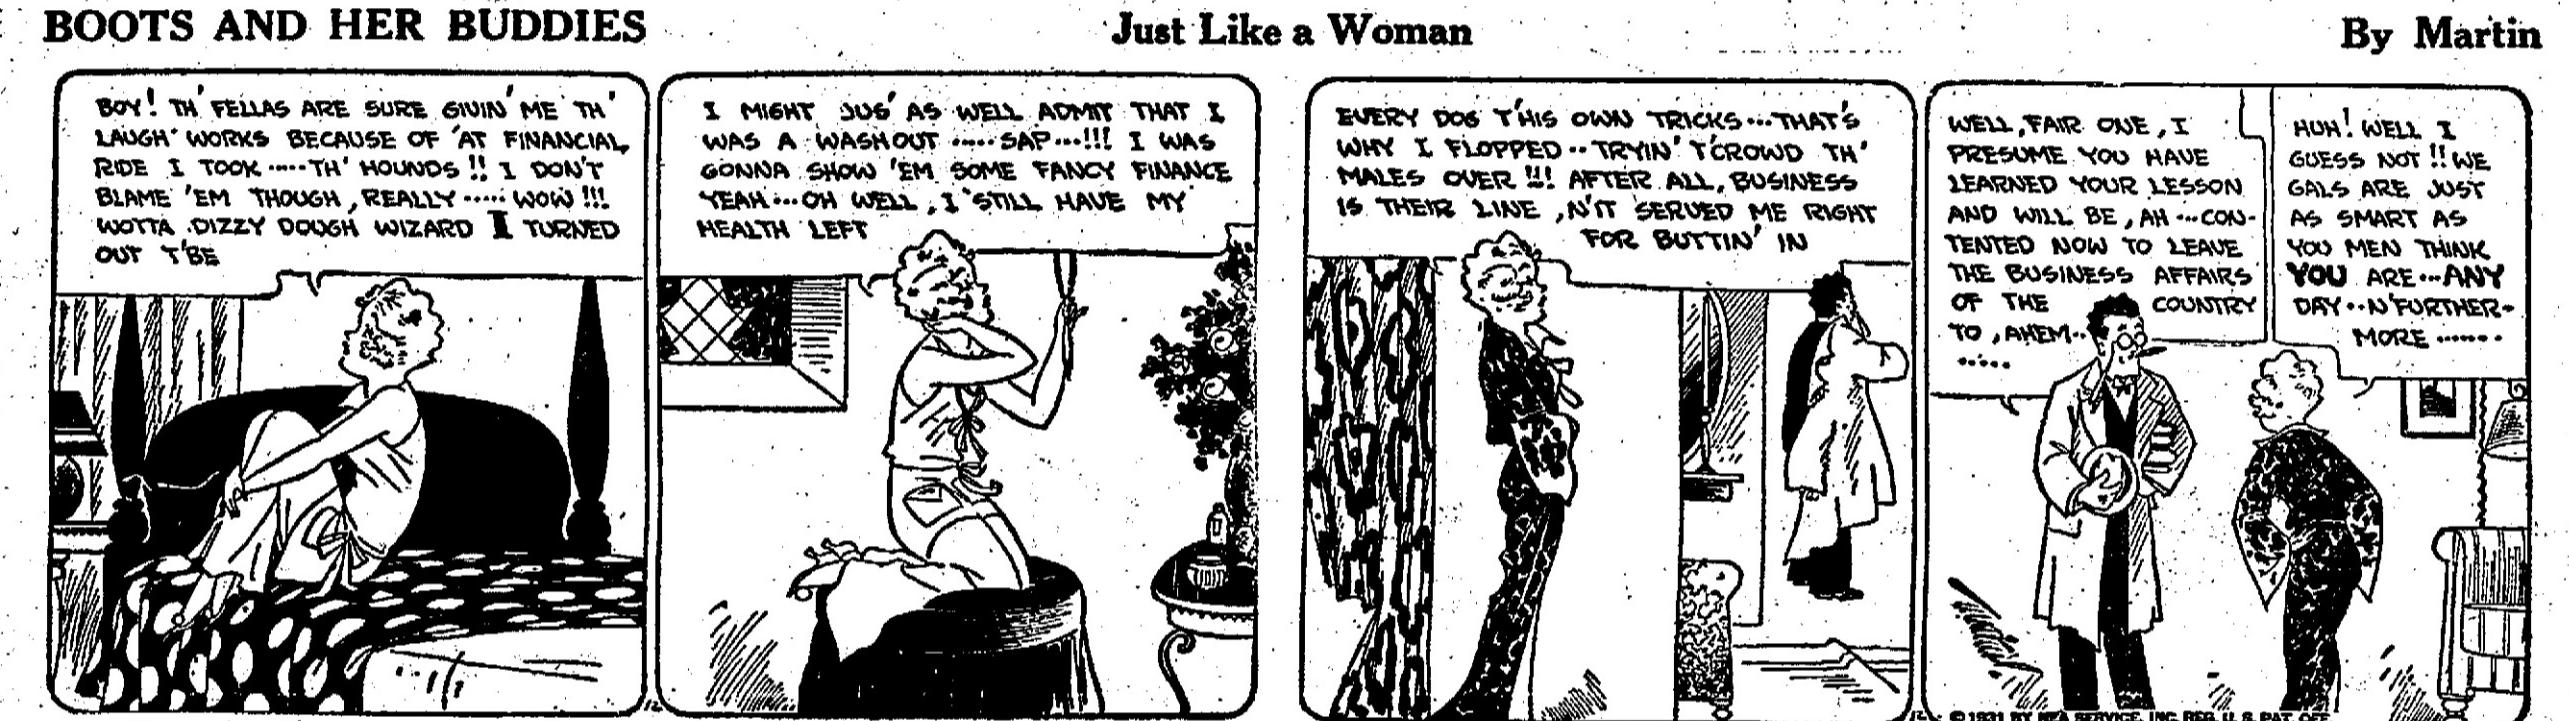

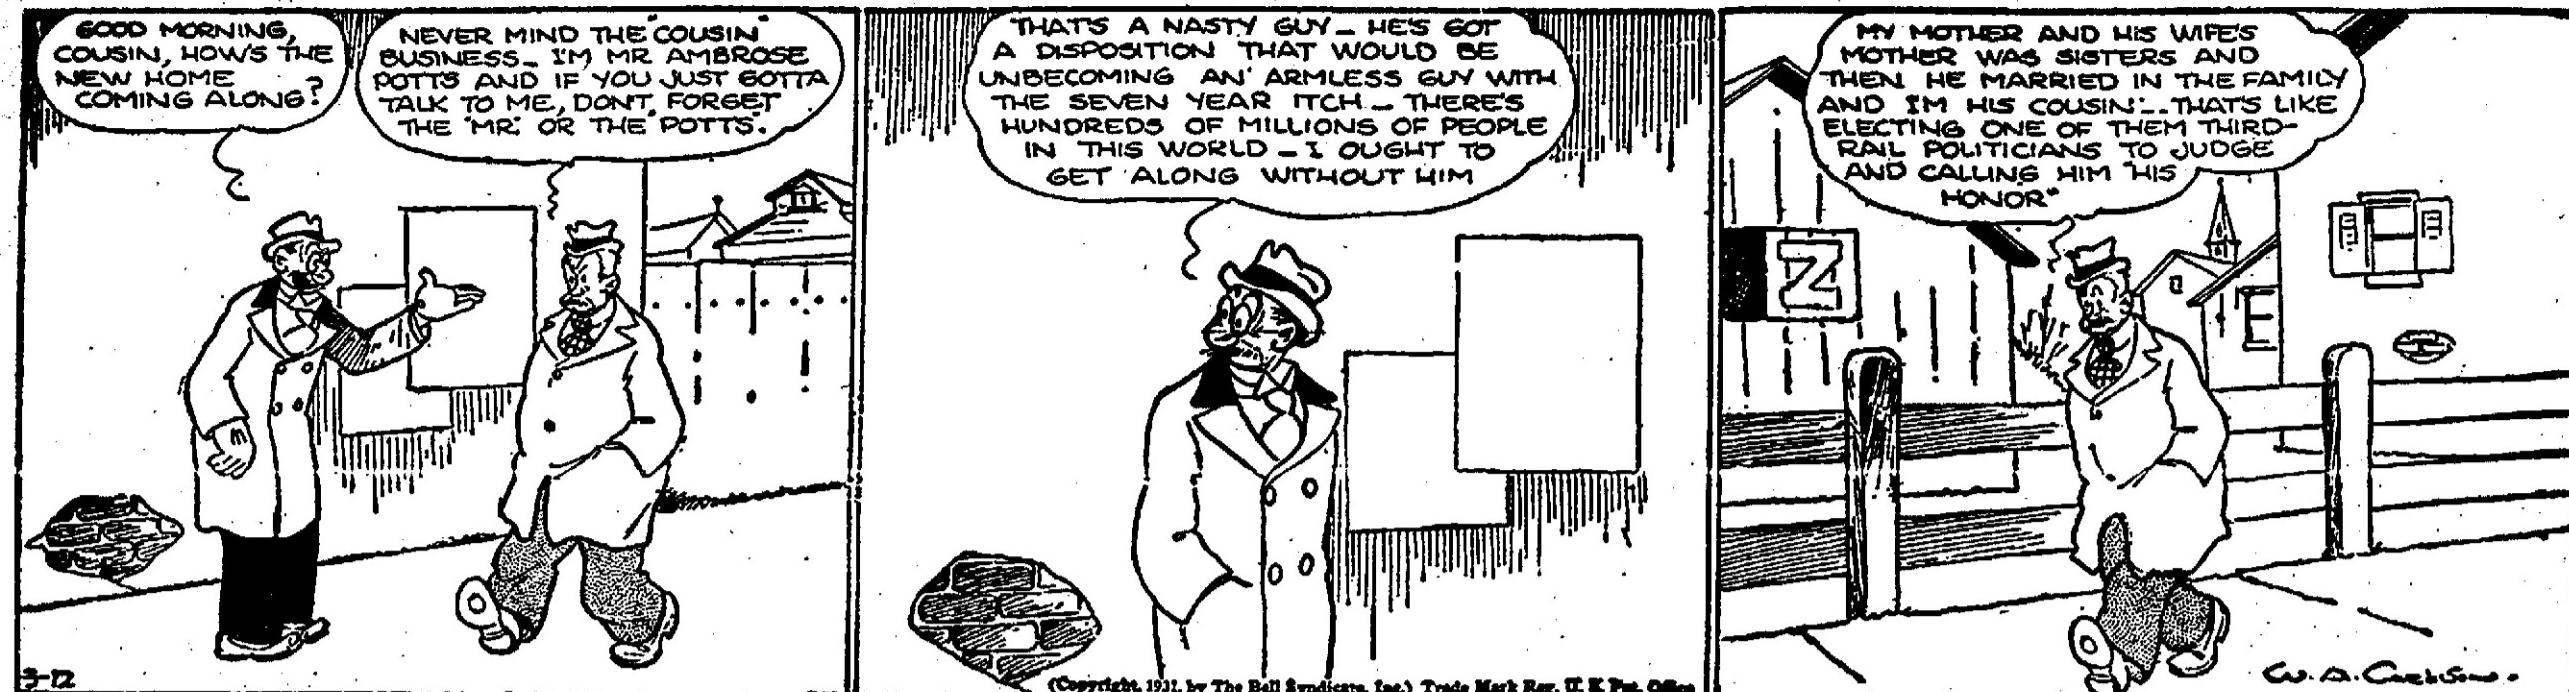

The astronomer Schiaparelli, in

1877, first told the world of the exis-

tence of "canals" on the planet Mars.

There he meets Marjorie Lauderelle, puzzled by her lingering illness. Her aunt, Mrs. Lauderelle, was formerly a companion of Charters' American days. Perhaps, says the doctor, Wayne knows how he robbed Schlitz and Chink Durson of their shares of the St. Clair diamond "job." Dr. MacAdoo's suggestion to "bump him off" is rejected by Charters, who decides to have Wayne's pretended delusions certified as insanity and remove him. Wayne, encountering MacAdoo, reveals his knowledge of his past life of crime and asks him what he is getting out of the Marjorie Lauderelle business. Started, MacAdoo offers to put his "cards on the table" if Wayne will do the same.

"And then he got six

## CENSOR KEEPS STERN EYE ON SPANISH PRESS

Attempts to Lift Ban Result in Rioting and New Outbreaks

Madrid, (AP)—After operating under almost constant government censorship for eight years, Spanish newspapers still do not know when they will be free.

During the seven years of the Primo dictatorship, commencing in 1923, censorship never ceased. Primo's system was as simple as it was iron-handed and effective. He either closed outright newspapers printing anything he disliked, or he imposed fines which meant ruin and if continued, he put the editors in jail.

For seven years General Primo de Rivera was, for all practical purposes, the managing editor of every newspaper in Spain. Amiable enough personally in many ways, he could be and was ruthless in many other ways, and the newspapers either said what he liked about politics or they said nothing.

The next premier, General Berenguer, tried to operate without a censorship, but he had no luck. He quickly restored the censorship, put it on again, took it off, established it once more. It was more often on than off because, after being suppressed so long, some newspapers went pretty strong in government criticism and in what the government considered rabble-rousing, inflammatory agitation whenever they were given the bridle at all.

Release Brought Riots

When Berenguer lifted the censorship the first time, labor strikes, university student riots, anti-monarchical political meetings leading to riots, quickly followed. He restored the censorship and the rioting stopped. He lifted the censorship again, and once more disturbances broke out all over Spain.

That cycle was repeated over and over, and culminated in the December revolution after which there was nation-wide martial law and a military censorship more severe, possibly, than anything that had been known before.

Some weeks after this revolution blew itself out Berenguer made his last stand for him, fatal attempt to give Spain a free press. He again removed all censorship. The newspapers said plenty. And in a few days the public feeling was so inflamed that Berenguer fell, revolution or dictatorship threatened, and the throne was in very real danger. The pesetas slumped to all-time lows and business was demoralized.

After several days of grave anxiety the Aznar government was formed—with censorship.

"When will the censorship be lifted?" the new government is being asked.

Minister of public works, Juan La Cierva, hard-boiled conservative and father of the aviation inventor, representing the views of his colleagues, replied:

"Whenever the Spanish newspapers know how to function uncensored, without wrecking their country."

## FARMER-LABOR HEAD MAY LOSE DISTRICT

Minneapolis, Minn. (AP)—Paul J. Kvale, the only farmer-labor member of the lower house of congress, faces the possibility that his constituency may be abandoned.

In the pending re-apportionment occasioned by the 1930 census

## Just Ten Days ---Eczema Gone

When the skin itches and Eczema drives you mad, just bathe the parts night and morning with antiseptic Moone's Emerald Oil.

Get a "bottle" for 85 cents at Schlitz Bros. Co.—3 Stores, Voigt's Drug Store, or any progressive druggist and apply after reading the directions.

If the itching hasn't entirely ceased in ten days you can have your money back.

It's easy and pleasant to use and its speedy action is little less than marvelous.

## LIFE'S ODDITIES

By George Clark

"Good morning, Ed—what's new?"

Minnesota's representation will be reduced from 10 to 9 in the lower house, and Kvale's district is now the smallest in population.

The fact that he is the only farmer-laborite in Minnesota's congressional delegation, all the other members being republicans, and that the legislature which makes the reapportionment is also of strong republican sympathies, may also count against the chances for his district.

Even though he may lose his district, however, Kvale is regarded as a strong candidate for re-election in 1932 because of strong farmer-labor sentiment in areas which may

be absorbed, and in which he would continue as a resident.

He is expected to occupy a key position in the organization of the next congress because of the near balance of power between democrats and republicans.

## AVIATION BEACON VISIBLE HALF-WAY ACROSS OHIO STATE

Comparatively Small Light Used to Guide Aviators by Night

Cleveland (AP)—Long distance flyers now can follow a piercing beacon light that spreads only 12 feet a mile and is visible half way across the state of Ohio.

The light is projected from a searchlight only 16 inches in diameter and from a bulb only five or six times larger than the ordinary one you read by. It was demonstrated before the Electrical League of Cleveland last night by W. A. Pennew, airport and airway lighting engineer with the Westinghouse Electric and Manufacturing company.

An aviator in Toledo, rising 5,000 or 6,000 feet on a clear night, can follow the beam all the way to Columbus, approximately 125 miles away, where four of the searchlights have been installed on the 555-foot American Insurance Union building. Pennew explained.

It projects the light sufficient for reading purposes five miles away, he said, and for example turned it on the "crib," five miles out in Lakewood where the city obtains its wa-

## TWO SCOUT TROOPS TO PLAN DEMONSTRATION

Boy scouts of Troop 4, American Legion, and Troop 16, All Saints Episcopal church, will hold a joint meeting at Armory G at 7:30 Thursday evening to discuss plans for a demonstration program they will present jointly at a meeting of the Masonic Lodge on March 27, according to Ted Frank, scoutmaster of the Legion troop. A social hour with games and stunts will follow the business meeting.

ter supply. The "crib" was distinctly visible.

The light's narrow beam makes the determination of the height of clouds banks more accurate and the searchlight is principally for that use, Pennew now said. The light has two sets of mirrors which enables it to utilize most of the bulb's rays. A mirror 1½ inches in diameter, specially curved in three sets to parabolae, is behind a 450-watt lamp and a four-inch mirror is in front to reflect the rays back into the larger mirror.

The 1,840,000 candlepower is dispensed 4 per cent every 5,000 feet on a clear night, and in a light haze, the loss is increased to 10 per cent a thousand feet. In a heavy haze it still can be seen a mile.

## Spring Is Good Time To Plant Shrubs Properly

When your shrubs arrive, if they come in box, they should be unpacked and planted as soon as possible. Never unpack shrubs until they can be planted or properly protected. If planting cannot be done immediately, it is best to "heel" the shrubs in—that is, plant temporarily. Dig a fairly deep, wide trench and place the bundles of shrubs in the trench, standing erect or lying at right angles to the trench. Cover the roots completely with earth, wet down and then recover with dry earth until the roots are completely buried and no air holes or pockets remain.

At planting time first go over the plant and carefully cut away all broken portions of the roots. It is always well to cut the tops back one-third or one-half but if the pruning is done before the plants are put in the soil, as it should be, then the condition of the roots will give some idea as to the extent the top should be pruned. If there is a great deal of top and few roots, then the cutting back should be more severe than if there are plenty of roots. Pruning also helps prevent drying back from the tips and encourages the plant in making its

growth from the bottom.

In arranging the shrubs in beds a zig-zag arrangement is best. Place small dwarf varieties one to two feet apart; medium tall growers one and one-half to three feet apart; tall growers three to six feet apart. Placing the shrubs further apart means a longer wait for a solid age mass, but takes less shrubs.

Dig generous sized holes with perpendicular sides (never shape). Put the good dirt to one side so that you can use it around the roots. Loosen up the soil in the bottom of the hole. Never allow roots of plants to be exposed long or become dried out.

Set the shrubs at about the same depth they stood in the nursery or slightly deeper. Spread roots out naturally and work soil over and around them. Keep putting in good dirt until the hole is nearly full, tramping the dirt firmly about the roots. If the ground is dry pour in a bucket of water. Finally fill up the hole with loose dirt which should not be tramped.

Dance at 5 Cor. Sun. Nite. Anderson's String Trio.

Matinee 25c Till 6 P. M.

# SALES MOPPED UP ON MARKET; BULLS ADVANCE

Bears Sneak Out With Profits as Trading Becomes Spiritless

By CLAUDE A. JAGGER  
Associated Press Financial Editor  
New York—(P)—Selling prompted by adverse dividend news was soon mopped up in today's stock market, and bull leaders made cautious efforts to get things in hand again.

The list slipped off 1 to 3 points in the first hour, but working slowly higher thereafter. Working was spiritless. Bears appeared already to have slipped away with their profit, so the market lacked a resilient cushion of short covering. Both business and corporate news was confusing enough to restrain the public from entering the market.

Speculators for the rise again concentrated their efforts in some of the eastern utilities. Tobaccos rose moderately in response to the enviable earnings report made by the American Tobacco Co. Consolidated Gas, Public Service of N. J. and United Gas Improvement, rose 2 points or so. Eastman and Ward Baking "A" gained as much, and Allied Chemical recovered 4. The American Tobacco issues, Liggett and Myers and Reynolds Class "E" shares, and Lorillard all mounted a point or so. Columbia Graphophone was again actively traded, rising 2 points. Rubbers also firmed, U. S. and Goodyear each advancing more than a point. During the early settling, New York Central dropped 3 to a new low, and Lackawanna lost 6. Other shares getting down 2 to 3 included American Power and Light, Corn Products, Westinghouse Electric, Baltimore and Ohio and Evers. U. S. Steel sold off a point then recovered.

With further adverse dividend news hanging over the market, bullish efforts distinctly lacking in enthusiasm, although the meagre volume of selling brought out by the New York Central reduction was encouraging. Further railroad dividend shaving is confidently expected. Market letter writers are pointing to the similarity of the position of Baltimore and Ohio and that of New York Central. The former has failed to earn its \$7 dividend. The break in Lackawanna was clearly in response to the central dividend cut, for that carrier is guided by a conservative banking influence which is an important factor in New York Central. Westinghouse's annual report, which included one too cheerful comment on the volume of business, did not inspire confidence in its current dividend rate.

The National Automobile Chamber of Commerce's report of motor car output was encouraging, saying March should show a gain of 50 per cent over February, and that retail sales seem to be keeping pace. Carnegie Steel's posting of second quarter prices unchanged from the first quarter quotations dashed hopes of an increase from the current unprofitable levels, but at least ended uncertainty. The copper market after its recent sag from 10 to 10 cents an ounce, interpreted rather bullishly the February statistics, and 10-cent metal soon disappeared. Call money renewed at 15 per cent once more, and was in fair supply. Time money was nominally firmer, but extremely dull.

## IRREGULARITY MARKS TREND OF BOND MART

New York—(P)—Trading in bonds was marked today by an irregular price trend and a curtailed volume.

Bullion issues enjoyed the greatest group activity but the majority of the changes among them were declines. St. Louis, San Francisco 4s of 1978 proved one of the most vulnerable bonds with a loss of more than 1 point at one time. Chicago & Northwestern 4s of 1949 dropped several points on early sales but this issue was less active than the Frisco 4s. Southern 4s of 1956 and New York, Chicago and St. Louis 4s of 1978 were lower. However, some bright spots appeared in firmness in Pennsylvania General 4s and series D 4s, and Union Pacific first 4s. Weakness in leading rail stocks was reflected by the losses among the bonds.

Activity among industrial obligations was concentrated among a few Smelting 5s and Bethlehem Steel issues. Armour 4s, American International Match 4s and Standard Oil of New York 4s were firm to higher on a few sales.

Warner Brothers Pictures' 6s and Loews 6s made sharp gains as the respective stocks strengthened. Atchison 4s of 1948, Lauter Nitrate 6s and Philadelphia Coal and Iron 6s eased off. Other bonds with stock conversion or purchase privileges were quiet.

## MILWAUKEE PRODUCE

## CATTLE SUPPLIES GREATLY REDUCED

Chicago Mart Offers Only 5,000 Head Against 22,300 Week Ago

Chicago—(P)—Cattle supplies were so small today that even a restricted demand for beef steers on the part of local packers caused no fear for the price scale. Chicago had only 5,000 head of cattle to offer buyers and the eleven markets received 18,500, against 22,300 a week ago. Shippers and local traders tried to find a few choice heavy and light steers, but the run offered little that was suitable for sale at more than \$10.00. Steers made up the bulk of supplies and in the early rounds buying was progressing on a steady basis.

In hogs and lambs, shippers held the key to the market and their activity was eagerly watched by all sellers. On the strength of recent heavy orders from the east, commission men held out for steady prices in the hog market and for better prices in lambs, but both markets saw little action to fulfill these demands. Trading in light hogs was slow and all bids were fully 10c below yesterday's best time. Receipts of 23,000 head, which was 5,000 head more than last Thursday's run, put a damper on any hope of recovery of the loss sustained yesterday, when the average declined fully 25c, to close at \$7.83.

Because shippers have taken about 40 per cent of the total receipts at Chicago for the first three days of this week, commission men held out today for a continuation of the prices that have been maintained only by shippers' support. Packers tried to buy the better grades of westerns at \$9,000 or less, but were refused in the early market. Of the run of 17,000 head received today, 6,700 were sent to the slaughter houses direct.

## CHICAGO LIVESTOCK

Chicago—(P)—Hogs 28,000 including 8,500 grecet; slow; uneven; mostly steady; light weights weak to 10 lower than yesterday's average; top 8.25; bulk 140-220 lbs 8.00-8.20; 240-340 lbs 7.00-7.35; pigs 7.50-8.20; packing sows 6.25-6.50.

Light hogs—Good and choice 140-160 lbs T.00-8.25; light weight 160-200 lbs 8.00-8.25; medium weight 200-250 lbs 7.50-8.25; heavy weight 250-300 lbs 6.90-7.60; packing sows—medium and good—275-500 lbs 6.25-6.65; slaughter pigs—good and choice 100-120 lbs 7.50-8.00.

Cattle 5,000; calves 2,000; better grade weighty steers slow; weak; light kinds especially lower grade offerings, strong to 25 higher; all she steers strong to 25 up; yearling heifers and light weight butcher helpers showing most advance; most fed steers 7.25-8.00; bulls strong and vealers about steady.

Steers—Good and choice 600-900 lbs 8.75-11.50; 900-1100 lbs 8.75-11.50; 1100-1300 lbs 8.75-11.25; 1300-1500 lbs 8.75-11.00; common and medium 600-1300 lbs 6.25-9.00; heifers—good and choice 650-850 lbs 7.50-10.00; common and medium 6.00-8.25; cows—medium and good—275-500 lbs 6.25-6.65; slaughter pigs—good and choice 100-120 lbs 7.50-8.00.

Cattle 5,000; calves 2,000; better grade weighty steers slow; weak; light kinds especially lower grade offerings, strong to 25 higher; all she steers strong to 25 up; yearling heifers and light weight butcher helpers showing most advance; most fed steers 7.25-8.00; bulls strong and vealers about steady.

Steers—Good and choice 600-900 lbs 8.75-11.50; 900-1100 lbs 8.75-11.50; 1100-1300 lbs 8.75-11.25; 1300-1500 lbs 8.75-11.00; common and medium 600-1300 lbs 6.25-9.00; heifers—good and choice 650-850 lbs 7.50-10.00; common and medium 6.00-8.25; cows—medium and good—275-500 lbs 6.25-6.65; slaughter pigs—good and choice 100-120 lbs 7.50-8.00.

Cattle 5,000; calves 2,000; better grade weighty steers slow; weak; light kinds especially lower grade offerings, strong to 25 higher; all she steers strong to 25 up; yearling heifers and light weight butcher helpers showing most advance; most fed steers 7.25-8.00; bulls strong and vealers about steady.

Steers—Good and choice 600-900 lbs 8.75-11.50; 900-1100 lbs 8.75-11.50; 1100-1300 lbs 8.75-11.25; 1300-1500 lbs 8.75-11.00; common and medium 600-1300 lbs 6.25-9.00; heifers—good and choice 650-850 lbs 7.50-10.00; common and medium 6.00-8.25; cows—medium and good—275-500 lbs 6.25-6.65; slaughter pigs—good and choice 100-120 lbs 7.50-8.00.

Cattle 5,000; calves 2,000; better grade weighty steers slow; weak; light kinds especially lower grade offerings, strong to 25 higher; all she steers strong to 25 up; yearling heifers and light weight butcher helpers showing most advance; most fed steers 7.25-8.00; bulls strong and vealers about steady.

Steers—Good and choice 600-900 lbs 8.75-11.50; 900-1100 lbs 8.75-11.50; 1100-1300 lbs 8.75-11.25; 1300-1500 lbs 8.75-11.00; common and medium 600-1300 lbs 6.25-9.00; heifers—good and choice 650-850 lbs 7.50-10.00; common and medium 6.00-8.25; cows—medium and good—275-500 lbs 6.25-6.65; slaughter pigs—good and choice 100-120 lbs 7.50-8.00.

Cattle 5,000; calves 2,000; better grade weighty steers slow; weak; light kinds especially lower grade offerings, strong to 25 higher; all she steers strong to 25 up; yearling heifers and light weight butcher helpers showing most advance; most fed steers 7.25-8.00; bulls strong and vealers about steady.

Steers—Good and choice 600-900 lbs 8.75-11.50; 900-1100 lbs 8.75-11.50; 1100-1300 lbs 8.75-11.25; 1300-1500 lbs 8.75-11.00; common and medium 600-1300 lbs 6.25-9.00; heifers—good and choice 650-850 lbs 7.50-10.00; common and medium 6.00-8.25; cows—medium and good—275-500 lbs 6.25-6.65; slaughter pigs—good and choice 100-120 lbs 7.50-8.00.

Cattle 5,000; calves 2,000; better grade weighty steers slow; weak; light kinds especially lower grade offerings, strong to 25 higher; all she steers strong to 25 up; yearling heifers and light weight butcher helpers showing most advance; most fed steers 7.25-8.00; bulls strong and vealers about steady.

Steers—Good and choice 600-900 lbs 8.75-11.50; 900-1100 lbs 8.75-11.50; 1100-1300 lbs 8.75-11.25; 1300-1500 lbs 8.75-11.00; common and medium 600-1300 lbs 6.25-9.00; heifers—good and choice 650-850 lbs 7.50-10.00; common and medium 6.00-8.25; cows—medium and good—275-500 lbs 6.25-6.65; slaughter pigs—good and choice 100-120 lbs 7.50-8.00.

Cattle 5,000; calves 2,000; better grade weighty steers slow; weak; light kinds especially lower grade offerings, strong to 25 higher; all she steers strong to 25 up; yearling heifers and light weight butcher helpers showing most advance; most fed steers 7.25-8.00; bulls strong and vealers about steady.

## APPLETON POST-CRESCENT

## COMMITTEES OF COUNCIL FACE BUSY SESSIONS

Must Complete Heavy Program Before Aldermen's Meeting Next Week

City committees have a full program of work ahead of them before the meeting of the common council next week. The first committee meeting will be held at 4 o'clock Friday afternoon, when the finance group will meet to consider bills to be presented at next week's meeting.

The police and license committee has four applications for garbage collector's licenses to act upon. They are from George Tennie, Greenville; Anton Werner, Mackville; Edward Krull, route 1, Appleton; and G. C. Deffering, route 1, Menasha.

A request for a water main on Walden Ave from John St. Dewey-St., and a petition for an extension of the main on N. Erb from W. Parkway-blvd north about 450 feet, are on the docket for the fire and water committee, and the planning commission will consider a report on the transfer of lots 11 and 12, block 7, Second ward plat, to the commercial and light manufacturing district.

The ordinance committee has a heavy program ahead of it. In addition to the revision of the junk ordinance it must consider four other proposed ordinances, and with the aid of the city attorney it will discuss the resolution from the Trades and Labor council presented at the meeting of the council. The resolution asks that an ordinance be drawn up which would stipulate that in awarding contracts for construction and other public work, home labor be used when available and at prevailing wage scales.

The street and bridge committee will consider the replatting of Denhardt plat, on which it held a public hearing Wednesday evening; the raising of a sidewalk on Richmond and Elsie's fronting on the Joseph Schmitz property, a sidewalk on Richmond next to the lot north of the Marshall Paper company building, catch basin at the corner of Story and Packard-sts; the proposal to pave Lawe-st from the Lawe-st south to South River-st.

## PUPIL HAS UNUSUAL ATTENDANCE RECORD

Marcella Werner, daughter of Mr. and Mrs. William Werner, 615 E. Calumet-st, who is celebrating her twelfth birthday today, has missed only one day of school in her life. Although she has had most of the common children's diseases, Marcella has always managed to be ill during the summer vacation. When she was in the fourth grade the illness of her grandmother kept her from school. She is in the seventh grade at Sacred Heart school.

## COUNTY DANCE HALL COMMITTEE TO MEET

The county dance hall committee will meet at 2 o'clock next Monday afternoon at the court house, according to John E. Hantschel, county clerk. Members of the committee are Joseph Sandhofer, James Kennedy, John Knapstein, Sheriff John Lappan and Oscar J. Schmiege, assistant district attorney.

**PRINTING FIRM HEAD SUICIDE**  
Pontiac, Mich.—(AP)—The body of Russel Van Sickle, 60, president of the Lincoln Printing company of Detroit, was found late yesterday, hanging in a room of his summer home near here. The floor of the room was littered with income tax data and a half completed income tax report was on a table. The coroner said Van Sickle had taken his own life. No motive was advanced by authorities.

When a Chinese girl gets married, her attendants are usually the oldest and ugliest women in the neighborhood.

## Lorado Taft Back At Old Work After Writing Play

Chicago—(AP)—Lorado Taft, having paused from sculpturing long enough to prove himself a playwright, has begun to model a companion piece for his famous "Fountain of Time." It will be the "Fountain of Creation," a work he hopes to present by the opening of the world's fair in Chicago two years hence.

The sculptor's aim had to stand aside while Taft fashioned with his pen "the Gates of Paradise," a play designed to acquaint young folk with the great works of sculpture. The artist himself designed and painted the scenes for its presentation first on a high school stage, and later at a down town theater.

Taft's newest project, with the classic motif of Deucalion, the Greek Noah, as its motif, is rapidly taking shape.

Deucalion and his wife, Pyrrha, so the legend relates, were the only mortals saved by Zeus after a nine day flood. Stepping from their boat on the top of Mount Parnassus they consulted an oracle as to the best way for restoring the human race. They were told to cover their heads and throw the bones of their mothers behind them. Pyrrha divined that these bones were the stones of mother earth.

Taft is endeavoring to show in "The Fountain of Creation" the moment when these stones are changing into men and women. The composition begins with creatures, half formed, vague, and prostrate, emerging from the shapeless rocks; these merge at higher levels into figures fully developed, almost erect, but still groping in the darkness. It reaches its climax in an exalted group of human forms saluting the dawn.

"The Fountain of Creation" is not the sculptor emphasizes, being carved to order. Its accomplishment has been a dream of his for years. When completed, he hopes to see it stand at the east end of the Midway Plaza that was the site of the world's fair in 1893—"The Fountain of Time."

## TWO RURAL SCHOOLS REPORT ATTENDANCE

Two rural schools have reported to A. G. Meating, county school superintendent of schools, the names of pupils neither absent nor tardy during February. Following are the schools:

Riverdale school, town of Bear Creek, Mrs. E. Van Horn, teacher; Hilda Lyons and Gladys Schinke. Cicero State Graded school, town of Cicero, Miss Bertha Kunze, teacher; Bert Brass, Melbert Brandenberg, Garvey Brass, Kenneth Krull, Adeline Burnmeister, Kenneth Raether, Carl Gagnow, Emerson Marks and Mert Brass.

Chicago's  
**MORRISON HOTEL**

Cornel Madison and Clark Sts.  
Nearest Hotel in the city to Stores, Offices, Theaters and Railroad Stations.

**2500 Rooms, \$2.50 Up**  
Every room in the Morrison Hotel is outside, with bath, circulating air, electric heat, reading lamp, telephone and Servic. A new 500 room section recently opened, entirely carried by the demand for Morrison service.

COME—WE'LL BE LATE  
DO THE DISHES TOMORROW

THEY'RE ALL DONE EXCEPT THE RINSE. THIS QUICK WAY OF SOAKING THEM IN RINSE TAKES ONLY A JIFFY

washday! Millions know that Rinso gets white clothes whiter—colored clothes brighter—without scrubbing or boiling! Get the BIG handy household package of Rinso!

Soak your dishes in these lively suds. See how the grease goes! A hot rinse and your dishes dry clear without wiping. Even pots and pans come shining bright with little scouring.

Trust your best silver to Rinso's creamy suds. No grit. Marvelous for white woodwork, for bathtubs, tile, floors, all cleaning. Nothing like it on

**Rinso**

The granulated soap for wash, dishes and all cleaning
